

AS 1828—1984

Australian Standard<sup>®</sup>

---

**Electrical equipment for explosive  
atmospheres—Cable glands**

---

This Australian standard was prepared by Committee EL/14, Electrical Equipment in Hazardous Locations. It was approved on behalf of the Council of the Standards Association of Australia on 1 August 1984 and published on 5 October 1984.

---

The following interests are represented on Committee EL/14:

- Australian Coal Association
- Australian Electrical and Electronic Manufacturers Association
- Australian Institute of Petroleum
- Confederation of Australian Industry
- Department of Industrial Relations, N.S.W.
- Department of Defence Support
- Department of Minerals and Energy, Vic.
- Department of Mines, Qld
- Electrical Contractors Associations of Australia
- Electricity Supply Association of Australia
- Independent Testing Interests
- Insurance Council of Australia
- State electricity regulatory authorities

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
