

AS 2193—2005
(Incorporating Amendment No. 1)
Reconfirmed 2017

AS 2193—2005

Australian Standard[®]

**Calibration and classification of
force-measuring systems**

This Australian Standard® was prepared by Committee MT-006, Mechanical Testing of Metals. It was approved on behalf of the Council of Standards Australia on 2 March 2005. This Standard was published on 18 March 2005.

The following are represented on Committee MT-006:

- Australasian Railway Association
 - Bureau of Steel Manufacturers of Australia
 - Institute of Materials Engineering Australasia
 - National Association of Testing Authorities
 - National Measurement Institute
-

This Standard was issued in draft form for comment as DR 04517.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

AS 2193—2005 (Reconfirmed) 2017-03-31

STANDARDS AUSTRALIA

RECONFIRMATION

OF

AS 2193—2005

Calibration and classification of force-measuring systems
