# Australian Standard 1981—1981

---

## STATIONARY BATTERIES OF THE LEAD-ACID PASTED PLATE TYPE

**STANDARDS ASSOCIATION OF AUSTRALIA**  
*Incorporated by Royal Charter*

THE FOLLOWING INDUSTRIAL, SCIENTIFIC AND GOVERNMENTAL ORGANIZATIONS and departments were officially represented on the committee entrusted with the preparation of this standard:

Australian Automobile Association  
Australian Federation of Consumer Organizations  
Australian Lead Development Association  
Confederation of Australian Industry  
Department of Housing and Construction  
Department of Defence  
Electricity Supply Association of Australia  
Federal Chamber of Automotive Industries  
Railways of Australia Committee  
Society of Automotive Engineers—Australasia  
Telecom Australia

---

This standard, prepared by the Committee EL/5, Accumulators, was approved on behalf of the Council of the Standards Association of Australia on 30 September 1980, and was published on 1 March 1981.

---

To keep abreast of progress in industry, Australian standards are subject to continuous review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that their standards are up-to-date. Full details of all SAA publications will be found in the Annual List of Australian Standards; these details are supplemented by listings in the SAA monthly journal 'The Australian Standard'. Information on the Annual List and 'The Australian Standard' may be obtained from any sales office of the Association, where details are also available of the current status of individual standards. Suggestions for improvements to published standards, addressed to the head office of the Association, are welcomed.
