

AS 5062:2016
(Incorporating Amendment No. 1)

AS 5062:2016

Fire protection for mobile and transportable equipment

This Australian Standard® was prepared by Committee FP-022, Fire Protection of Mobile and Transportable Equipment. It was approved on behalf of the Council of Standards Australia on 20 June 2016.

This Standard was published on 11 July 2016.

The following are represented on Committee FP-022:

- Australasian Fire and Emergency Service Authorities Council
 - Construction and Mining Equipment Industry Group
 - Department of Trade and Investment, NSW
 - Fire Protection Association Australia
 - Mining Electrical and Mining Mechanical Engineering Society
-

This Standard was issued in draft form for comment as DR AS 5062:2015.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Australian Standard was prepared by Standards Australia Committee FP-022, Fire Protection of Mobile and Transportable Equipment, to supersede AS 5062—2006.

This Standard incorporates Amendment No. 1 (April 2017). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

This Standard originated as Australian Coal Association Research Program, *Draft Code of Practice Fire Suppression Systems for Off-Road Mobile and Transportable Vehicles*. The scope has been expanded for applicability to vehicles and transportable equipment in other industry sectors.

The objective of the Standard is to formalize current good practice in reducing the incidence and severity of fires and to provide a consistent approach to fire risk reduction in order to safeguard life, property and the environment against fire associated with mobile and transportable equipment.

Providing protection against fire on mobile and transportable equipment poses unique and specific challenges, which general risk assessment methodologies do not necessarily address. This Standard is intended to assist in meeting those specific requirements.

This Standard references the requirements of the various fire protection systems Standards, with the exception of pre-engineered foam water spray systems. In the absence of an applicable Standard, the specific requirements for foam water spray systems are provided in this Standard.

Statements expressed in mandatory terms in notes to tables are deemed to be requirements of this Standard.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

This Standard incorporates a Commentary on some Clauses. The Commentary directly follows the relevant Clause, is designated by ‘C’ preceding the Clause number and is printed in italics in a panel. The Commentary is for information only and does not need to be followed for compliance with the Standard.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	6
1.2 LIMITATIONS.....	7
1.3 REFERENCED DOCUMENTS.....	7
1.4 DEFINITIONS.....	7
1.5 INTERPRETATION OF SPECIFIED LIMITING VALUES.....	10
SECTION 2 FIRE RISK MANAGEMENT	
2.1 GENERAL.....	11
2.2 CONSULTATION.....	14
2.3 RECORDS.....	14
2.4 FIRE HAZARD IDENTIFICATION	14
2.5 FIRE RISK ANALYSIS	17
2.6 FIRE RISK EVALUATION	18
2.7 MONITORING AND REVIEW	19
SECTION 3 FIRE RISK REDUCTION	
3.1 GENERAL.....	20
3.2 DESIGN MEASURES AND SAFEGUARDS	22
3.3 ADMINISTRATIVE CONTROLS	24
3.4 DOCUMENTATION.....	25
3.5 FIRE PROTECTION SYSTEMS.....	25
SECTION 4 SAFETY REQUIREMENTS	
4.1 EMERGENCY PROCEDURES	27
4.2 EMERGENCY STOP DEVICE	27
4.3 SIGNS AND WARNING NOTICES	27
4.4 FIRE EXTINGUISHERS.....	30
SECTION 5 FIRE PROTECTION SYSTEMS	
5.1 GENERAL.....	31
5.2 FIRE PROTECTION SYSTEM FUNCTIONS	31
5.3 EXTINGUISHING AGENT	34
5.4 OPERATING CONDITIONS	34
5.5 FIRE SYSTEM SPECIFICATION	34
5.6 LISTING OF FIRE PROTECTION SYSTEMS.....	35
5.7 FIRE TESTING REQUIREMENTS FOR FOAM WATER SPRAY FIRE SUPPRESSION SYSTEMS.....	35
5.8 DESIGN AND INSTALLATION.....	36
5.9 EQUIPMENT MODIFICATIONS.....	36
5.10 DOCUMENTATION.....	36
5.11 FIRE PROTECTION SYSTEMS.....	37
5.12 SYSTEM SAFETY REQUIREMENTS.....	37
