

**AS/NZS 1477:1999**  
(Incorporating Amendment No. 1)

AS/NZS 1477

**Australian/New Zealand Standard™**

**PVC pipes and fittings for pressure applications**

## **AS/NZS 1477:1999**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee PL-021, PVC, ABS and Polyamide Pipe Systems. It was approved on behalf of the Council of Standards Australia on 21 May 1999 and on behalf of the Council of Standards New Zealand on 8 June 1999. It was published on 5 August 1999.

---

The following are represented on Committee PL-021:

Australian Association of Certification Bodies  
Australian Chamber of Commerce and Industry  
Australian Gas Association  
CSIRO Division, of Building, Construction and Engineering  
Department of Land and Water Conservation NSW  
Gas Association of New Zealand  
Institution of Engineers Australia  
Local Government New Zealand  
Master Plumbers Australia  
New Zealand Society of Master Plumbers  
New Zealand Water and Wastes Association  
Plastics and Chemical Industries Association, Australia  
Plastics Institute of New Zealand  
Water Services Association of Australia

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee PL/21, PVC, ABS and Polyamide Pipe Systems.

*This Standard incorporates Amendment No. 1 (September 2003). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.*

The objective of this Standard is to provide a standard specification for manufacturers and purchasers of PVC pipe and fittings for pressure applications.

The term ‘informative’ has been used in this Standard to define the application of the appendix to which it applies. An ‘informative’ appendix is only for information and guidance.

The AS 1462 series at the time of publication of this Standard is in the process of a joint Standards Australia/Standards New Zealand review and will be published as AS/NZS 1462 series. As these are published the AS 1462 documents referenced in this Standard should be replaced by the equivalent AS/NZS 1462 documents.

The test criteria specified in this Standard apply to pipes and fittings at the time of manufacture and should not be used to assess the results from tests on pipes or fittings that have been in service.

A1 | Statements expressed in mandatory terms in notes to tables are deemed to be requirements of this Standard.

## CONTENTS

	<i>Page</i>
FOREWORD.....	5
 SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	6
1.2 REFERENCED DOCUMENTS.....	6
1.3 DEFINITIONS.....	7
1.4 NOTATION.....	8
1.5 CLASSIFICATION .....	9
1.6 SOLVENT CEMENTS.....	9
 SECTION 2 GENERAL REQUIREMENTS	
2.1 GENERAL.....	10
2.2 COMPOSITION .....	10
2.3 DIMENSIONS.....	10
2.4 COLOUR.....	10
2.5 FREEDOM FROM DEFECTS .....	10
2.6 REQUIREMENTS FOR ELASTOMERIC JOINTING RINGS .....	11
2.7 WITNESS MARK .....	11
 SECTION 3 PERFORMANCE REQUIREMENTS	
3.1 GENERAL.....	12
3.2 COMMON TESTS .....	12
3.3 PIPE TESTS .....	12
3.4 FITTINGS TESTS .....	14
3.5 ELASTOMERIC SEAL JOINT TESTS.....	15
3.6 TESTING SUMMARY.....	15
 SECTION 4 PIPES	
4.1 GENERAL.....	16
4.2 DIAMETER AND WALL THICKNESS.....	16
4.3 LENGTH.....	16
4.4 PIPE SPIGOT ENDS .....	16
4.5 SOCKETS FORMED ON PIPES.....	17
4.6 MARKING .....	22
4.7 STORAGE AND TRANSPORT.....	22
 SECTION 5 MOULDED FITTINGS	
5.1 DIMENSIONS.....	23
5.2 WALL THICKNESS .....	24
5.3 THREADED FITTINGS.....	25
5.4 MARKING .....	25
 SECTION 6 POST-FORMED BENDS AND COUPLINGS	
6.1 GENERAL.....	26
6.2 SOCKETS .....	26
6.3 MARKING .....	26
