

Australian/New Zealand Standard™

Dependability management

Part 1: Guidance for management and application

AS/NZS IEC 60300.1:2015

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR-005, Dependability. It was approved on behalf of the Council of Standards Australia on 12 December 2014 and on behalf of the Council of Standards New Zealand on 12 December 2014.

This Standard was published on 23 January 2015.

The following are represented on Committee QR-005:

Asset Management Council
Australian Industry Group
Australian Organisation for Quality
Department of Defence (Australian Government)
Engineers Australia
Independent Transport Safety and Reliability Regulator
Institution of Professional Engineers New Zealand
New Zealand Institute of Safety Management
New Zealand Society for Risk Management
Risk Management Institution of Australasia
The Institute of Chemical Engineers
University of New South Wales
University of Wollongong

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

AS/NZS IEC 60300.1:2015

Australian/New Zealand Standard™

Dependability management

Part 1: Guidance for management and application

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee QR-005, Dependability to supersede AS IEC 60300.1—2004, *Dependability management, Part 1: Dependability management systems*.

The objective of this Standard is to provide guidance on dependability management of products, systems, processes or services involving hardware, software and human aspects or any integrated combinations of these elements.

This Standard is identical with, and has been reproduced from, IEC 60300-1 Ed.3.0 (2014), *Dependability management, Part 1: Guidance for management and application*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text ‘this part of IEC 60300’ should read ‘this Australian/New Zealand Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

The term ‘informative’ has been used in this Standard to define the application of the annex to which it applies. An ‘informative’ annex is only for information and guidance.

CONTENTS

1	Scope	7
2	Normative references	7
3	Terms, definitions and abbreviations	7
3.1	Terms and definitions	7
3.2	Abbreviations	10
4	Dependability management	10
4.1	Understanding dependability	10
4.2	Benefits of dependability management	12
4.3	Challenges of managing dependability	12
5	System for managing dependability	12
5.1	Overview	12
5.2	Organizational arrangements	13
5.3	Management actions	14
5.4	Performance evaluation	14
6	Application of dependability management	15
6.1	Tailoring a dependability programme	15
6.2	Analysis of objectives and requirements	16
6.3	Risk management	17
