Australian/New Zealand Standard™

Geographic information—Geography Markup Language (GML)

AS/NZS ISO 19136:2008

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee IT-004, Geographical Information/Geomatics. It was approved on behalf of the Council of Standards Australia on 25 July 2008 and on behalf of the Council of Standards New Zealand on 21 July 2008.
This Standard was published on 16 September 2008.

The following are represented on Committee IT-004:

ACT Planning and Land Authority
ANZLIC - the Spatial Information Council
Australian Antarctic Division
Australian Bureau of Statistics
Australian Hydrographic Office
Australian Key Centre In Land Information Studies
Australian Map Circle
Australian Spatial Information Business Association
CSIRO Exploration & Mining
Department for Administrative and Information Services (SA)
Department of Defence (Australia)
Department of Lands NSW
Department of Natural Resources and Water (Qld)
Department of Planning and Infrastructure (NT)
Department of Primary Industries and Water Tasmania
Department of Sustainability and Environment (Victoria)
Geoscience Australia
InterGovernmental Committee on Surveying and Mapping
Land Information New Zealand
Office of Spatial Data Management
Western Australian Land Information System

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 08110.
