

AS 2752—1985

Australian Standard[®]

**PREFERRED NUMBERS AND
THEIR USE**

This Australian standard was prepared by Committee MS/10, Quantities, Units and Conversions. It was approved on behalf of the Council of the Standards Association of Australia on 8 October 1984 and published on 4 April 1985.

The following interests are represented on Committee MS/10:

Australian Institute of Physics

Bureau of Steel Manufacturers of Australia

CSIRO, Division of Applied Physics

Department of Defence

Department of Science and Technology

Electricity Commission of New South Wales

Monash University

National Association of Testing Authorities Australia

National Standards Commission

University of New South Wales

University of Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This standard was issued in draft form for comment as DR 84019.
