

AS 1039—1986

Australian Standard[®]

**ELECTRICAL EQUIPMENT FOR
COAL MINES—**

**EXPLOSION-PROTECTED
DISTRIBUTION AND CONTROL
BOXES FOR VOLTAGES UP TO
3300 V A.C.**

This Australian standard was prepared by Committee EL/23, Electrical Equipment in Coal Mines. It was approved on behalf of the Council of the Standards Association of Australia on 9 September 1986 and published on 3 November 1986.

The following interests are represented on Committee EL/23:

Australian Coal Association
Australian Electrical and Electronic Manufacturers Association
Confederation of Australian Industry
Department of Industrial Relations, NSW
Department of Mines, QLD
Elcom Collieries, NSW
Institute of Mining Electrical and Mining Mechanical Engineers
Joint Coal Board
Queensland Confederation of Industry
University of Newcastle

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This standard was issued in draft form for comment as DR 84272.
