Australian Standard 2374, Part 6—1982

POWER TRANSFORMERS Part 6—SOUND LEVELS

[Title allocated by Defence Cataloguing Authority:
TRANSFORMER, POWER (Sound Levels) ... NSC 5950, 6120]

STANDARDS ASSOCIATION OF AUSTRALIA
Incorporated by Royal Charter

This Australian Standard, prepared by Committee EL/8, Static Electrical Machinery, was approved on behalf of the Council of the Standards Association of Australia on 8 June 1982 and published on 9 August 1982.

The following interests were represented on the committee responsible for the preparation of this standard:

- Australian-British Trade Association
- Australian Electrical and Electronic Manufacturers Association
- Confederation of Australian Industry
- Defence Standardization Committee
- Electrical testing laboratories
- Electricity Supply Association of Australia
- Electricity Supply Engineers Association of N.S.W.
- Institution of Engineers, Australia
- Railways of Australia Committee

To keep abreast of progress in industry, Australian standards are subject to continuous review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that their standards are up-to-date. Full details of all SAA publications will be found in the Annual List of Australian Standards; these details are supplemented by listings in the SAA monthly journal 'The Australian Standard'. Information on the Annual List and 'The Australian Standard' may be obtained from any sales office of the Association, where details are also available of the current status of individual standards. Suggestions for improvements to published standards, addressed to the head office of the Association, are welcomed.

This standard was issued in draft form for comment as DR 81268.

This is a free preview. Purchase the entire publication at the link below:
