AS 61508.0—2006

Australian Standard[®]

**Functional safety of
electrical/electronic/programmable
electronic safety-related systems**

Part 0: Functional safety and AS 61508

This Australian Standard® was prepared by Committee IT-006, Industrial Automation Systems and Integration. It was approved on behalf of the Council of Standards Australia on 3 November 2006.

This Standard was published on 29 December 2006.

The following are represented on Committee IT-006:

- Association of Consulting Engineers Australia
 - Australian Electrical and Electronic Manufacturers Association
 - CSIRO Centre for Planning and Design
 - Engineers Australia
 - Institute of Chemical Engineers Australia
 - Institute of Instrumentation, Control and Automation Australia
 - Monash University
 - Process Control Society
 - RMIT University
 - The University of Melbourne
-

This Standard was issued in draft form for comment as DR 06486.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
