Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia International Committee MB-004 Business Governance.

This Standard incorporates Amendment No. 1 (November 2004). The change arising from this Amendment applies to the Committee representatives list on the inside front cover of this Standard.

The objective of this Standard is to provide a blueprint for the development and implementation of a generic system of governance suitable for a wide range of entities.

This Standard is the ‘lead’ Standard in the Governance Series. When complete this series will comprise:

- AS 8000 Good governance principles (this Standard)
- AS 8001 Fraud and corruption control
- AS 8002 Organizational Codes of Conduct
- AS 8003 Corporate social responsibility
- AS 8004 Whistleblower protection programs for entities

This Standard recognizes that there are general laws in place regulating how to comply with good governance principles. The intention is not to cut across the law, but enhance the legislation. If there is any doubt as to a potential conflict between the law and this Standard, seek professional advice.

This Standard complements existing guidelines produced by IFSA and the ASX Corporate Governance Council. It is suggested that the reader refer to these guidelines where appropriate.

The term ‘informative’ has been used in this Standard to define the application of the appendix to which it applies. An ‘informative’ appendix is only for information and guidance.
