

AS 3108

Under Revision 93038

Superseded by AS/NZS 3108:1994

Amendment 1 - March 1992
2 - October 1992
3 - September 1993

AS 3108—1990

Australian Standard®

**Approval and test specification—
Particular requirements for isolating
transformers and safety isolating
transformers**

K

STANDARDS AUSTRALIA

This Australian Standard was prepared by Committee EL/26, Protective Enclosures of Electrical Equipment. It was approved on behalf of the Council of Standards Australia on 15 June 1990 and published on 12 November 1990.

The following interests are represented on Committee EL/2:

Australian Consumers Association
Australian Electrical and Electronic Manufacturers Association
Confederation of Australian Industry
Consumer Electronics Suppliers Association
Electrical Apparatus Approvals Authorities
Electrical Testing Laboratories
Electricity Supply Association of Australia
Institution of Engineers, Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
