

AS/NZS 4836:2001

SAFE WORKING on low-voltage **ELECTRICAL** installations

Standards Australia

STANDARDS
NEW ZEALAND
Pūnaha Aotearoa

AS/NZS 4836:2001

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-044, Safe Working on Low-voltage Electrical Installations approved on behalf of the Council of Standards Australia on 21 February 2001 and on behalf of the Council of Standards New Zealand on 27 April 2001. It was published on 15 May 2001.

The following interests are represented on Committee EL-044:

A.C.T. Department of Urban Services
Australasian Railway Association
Australian Council of Trade Unions
Australian Industry Group
Cable & Wireless Optus
Department of Fair Trading N.S.W.
Department of Mineral Resources N.S.W.
Electrical Contractors Association of New Zealand
Electrical Safety Organization (New Zealand)
Electricity Standards & Safety (Tasmania)
Hunter Industry Electrical Safety Network
Independent Electrical Switchboard Manufacturers Association
Ministry of Economic Development (New Zealand)
National Electrical and Communications Association
Office of the Chief Electrical Inspector (Vic)
Office of the Technical Regulator (S.A.)
WorkCover N.S.W.

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL/44, Safe Working on Low-voltage Electrical Installations.

The objective of this Standard is to provide workers on low-voltage electrical installations or systems with—

- (a) the principles of safe working practices; and
- (b) recommended procedures for safe working practices.

In the preparation of the Standard, reference was made to the *Code of Practice for Safe Electrical Work, Low Voltage Electrical Installations* produced by the Office of the Chief Electrical Inspector, Victoria and to the *Guide to electrical workers' safety practices* produced by WorkCover N.S.W.

The term 'informative' has been used in this Standard to define the application of the appendix to which it applies. An 'informative' appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	4
1.2 APPLICATION	4
1.3 ACTS AND REGULATIONS	4
1.4 REFERENCED DOCUMENTS.....	7
1.5 DEFINITIONS.....	8
SECTION 2 PRINCIPLES OF RISK MANAGEMENT AND ASSESSEMENT OF RISK	
2.1 GENERAL.....	11
2.2 PRINCIPLES	11
2.3 IDENTIFY THE HAZARDS	11
2.4 ASSESSING AND PRIORITIZING THE RISKS	13
SECTION 3 RISK CONTROL	
3.1 APPLYING CONTROL MEASURES.....	14
3.2 RISK CONTROL FOR PARTICULAR TYPES OF WORK	17
3.3 RISK CONTROL FOR SPECIAL SITUATIONS.....	23
SECTION 4 SAFETY EQUIPMENT AND TOOLS	
4.1 INSULATED TOOLS AND EQUIPMENT.....	25
4.2 PORTABLE ELECTRIC TOOLS.....	25
4.3 LADDERS AND STEP LADDERS.....	26
4.4 ELEVATING WORK PLATFORMS AND SCAFFOLDING	26
4.5 USE OF SAFETY BELTS AND HARNESES	26
4.6 INSULATING BARRIERS, COVERS AND MATS.....	27
SECTION 5 SAFETY OBSERVERS	
5.1 USE OF SAFETY OBSERVERS	28
5.2 RESPONSIBILITY.....	28
5.3 INSTRUCTIONS AND SKILLS	28
5.4 PERSONAL PROTECTIVE EQUIPMENT.....	28
5.5 DISABILITIES	28
SECTION 6 TEST EQUIPMENT	
6.1 GENERAL.....	29
6.2 SUITABILITY OF EQUIPMENT	29
6.3 TEST EQUIPMENT CHECKS.....	29
SECTION 7 TRAINING, QUALIFICATIONS AND COMPETENCE	
7.1 GENERAL.....	30
7.2 SUPERVISION.....	30
SECTION 8 PERSONAL PROTECTIVE EQUIPMENT	
SECTION 9 ELECTRICAL INCIDENTS	
9.1 MEDICAL ATTENTION	32
9.2 REPORTING	32
APPENDICES	
A TYPICAL RISK ASSESSMENT FORM.....	33
B CASE STUDIES OF ELECTRICAL INCIDENTS.....	35
