Royal Australian Chemical Institute
Society for Risk Analysis, Australia and New Zealand Regional
The Institute of Internal Auditors—Australia
University of New South Wales
Worksafe—Energy Safety New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com or Standards New Zealand web site at www.standards.govt.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of Standards Australia or the New Zealand Standards Executive at the address shown on the back cover.

This Handbook was issued in draft form for comment as DR SA/SNZ HB 205:2016.

PREFACE

This Handbook was prepared by the Joint Standards Australia/Standards New Zealand Committee OB-007, Risk Management, to supersede HB 205—2004, *OHS Risk Management Handbook*.

The general purpose of the Handbook is to provide guidance on the application of AS/NZS ISO 31000:2009, *Risk management—Principles and guidelines* (‘the Standard’) for the effective management of health-and-safety-related risk, and thereby contribute to the health and safety of workers and others.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	4
1.2 APPLICATION	4
