Australian Standard 1042—1973

DIRECT-ACTING INDICATING ELECTRICAL MEASURING INSTRUMENTS AND THEIR ACCESSORIES

METRIC UNITS

STANDARDS ASSOCIATION OF AUSTRALIA
Incorporated by Royal Charter

THE FOLLOWING SCIENTIFIC, INDUSTRIAL AND GOVERNMENTAL ORGANIZATIONS and departments were officially represented on the committee entrusted with the preparation of this standard:

Associated Chambers of Manufactures of Australia
Australian and New Zealand Railways Conferences
Australian-British Trade Association
CSIRO Division of Applied Physics
Department of Defence
Defence Standards Laboratories
Electricity Supply Association of Australia
Electrical and Radio Federation, Victoria
The Institution of Engineers, Australia
Postmaster-General's Department

This standard, prepared by Committee EL/12, Electrical Indicating and Recording Instruments, was approved on behalf of the Council of the Standards Association of Australia on 28 November 1972.

The specification is intended to include the technical provisions necessary for the supply of the materials referred to but does not purport to comprise all the necessary provisions of a contract.

To keep abreast of progress in industry, Australian standards are regularly reviewed. Suggestions for improvement to published standards, addressed to the headquarters of the Association, are welcomed.

Kathryn, MIC

We have received information from Frank Duff that AS 1042, was reprinted in 1979 with corrections. We have only been able to get one copy of this reprint and cannot send one to you. If you cannot get a copy through your sales section, please inform us if you would like a photocopy of the reprint. Below is Frank Duff's explanation of what was corrected.
