**Data storage and transfer media—  
Storage, transportation and  
maintenance of magnetic media for  
use in data processing and  
information storage**

**Part 1: Exchangeable disks**

---

[BSI title: Storage, transportation and maintenance of magnetic media for use in data processing and information storage, Part 1: Exchangeable disks]

This Australian Standard was prepared by Committee IT/10, Information Systems Equipment. It was approved on behalf of the Council of Standards Australia on 8 May 1989 and published on 13 October 1989.

---

The following interests are represented on Committee IT/10:

Australian Information Industries Association  
CSIRO Institute of Information and Communication Technologies  
Data media manufacturers  
Interface Developers  
La Trobe University

---

**Review of Australian Standards.** *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto. Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.*

*Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.*

## PREFACE

This Standard was prepared by the Standards Australia Committee on Information Systems Equipment. It is identical with and has been reproduced from British Standards Institution's Standard BS 4783: Part 1: 1988, *Storage, transportation and maintenance of magnetic media for use in data processing and information storage, Part 1: Exchangeable disks*.

For the purpose of this Australian Standard, the text of the BSI Standard should be modified as follows:

*Terminology:* Replace 'BS 4783' with 'AS 3636' wherever it appears.

© Copyright – STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

## CONTENTS

	<i>Page</i>
1 SCOPE .....	4
2 DEFINITIONS .....	4
3 DISK LIBRARY .....	5
4 INCOMING DISKS (CONTROL PROCEDURES) .....	5
5 STORAGE .....	10
6 HANDLING .....	11
7 INSPECTION AND CLEANING .....	14
8 GENERAL MAINTENANCE .....	16
9 FAULT IDENTIFICATION .....	16
