

Australian/New Zealand Standard™

**Household and similar electrical  
appliances—Safety**

**Part 2.40: Particular requirements for  
electrical heat pumps, air-conditioners  
and dehumidifiers  
(IEC 60335-2-40 Ed 4.2, IDT)**

### **AS/NZS 60335.2.40:2006**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002, Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 15 March 2006 and on behalf of the Council of Standards New Zealand on 24 March 2006.

This Standard was published on 23 June 2006.

---

The following are represented on Committee EL-002:

Australian Industry Group  
Australian Retailers Association  
Australian Electrical and Electronic Manufacturers Association  
Business New Zealand  
Consumer Electronic Suppliers Association, Australia  
Consumers' Federation of Australia  
Electrical regulatory authorities, Australia  
Electrical Compliance Testing Association  
Electrical consultants  
Electricity Supply Association of Australia  
Ministry of Consumer Affairs, New Zealand  
New Zealand Electric Energizer Manufacturers' Standards Group

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

---

*This Standard was issued in draft form for comment as DR 05933.*

AS/NZS 60335.2.40:2006

## Australian/New Zealand Standard™

### Household and similar electrical appliances—Safety

#### Part 2.40: Particular requirements for electrical heat pumps, air-conditioners and dehumidifiers (IEC 60335-2-40 Ed 4.2, IDT)

Originated in Australia as AS C179—1970.  
Originated in New Zealand as NZS/AS 3179—1986.  
Jointly revised and designated AS/NZS 3179—1993.  
Revised and designated AS/NZS 3350.2.40:1997.  
Second edition AS/NZS 3350.2.40:2001.  
Jointly revised and redesignated AS/NZS 60335.2.40:2006.

## CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope .....	7
2 Normative references .....	8
3 Definitions .....	9
4 General requirement.....	11
5 General conditions for the tests .....	12
6 Classification.....	12
7 Marking and instructions .....	13
8 Protection against access to live parts .....	15
9 Starting of motor-operated appliances .....	15
10 Power input and current.....	16
11 Heating .....	16
12 Void .....	21
13 Leakage current and electric strength at operating temperature .....	21
14 Transient overvoltages .....	22
15 Moisture resistance .....	22
16 Leakage current and electric strength .....	23
17 Overload protection of transformers and associated circuits .....	23
18 Endurance.....	23
19 Abnormal operation .....	23
20 Stability and mechanical hazards .....	30
21 Mechanical strength .....	30
22 Construction.....	31
23 Internal wiring.....	35
24 Components .....	35
25 Supply connection and external flexible cords .....	35
26 Terminals for external conductors .....	36
27 Provision for earthing.....	36
28 Screws and connections .....	36
29 Clearances, creepage distances and solid insulation .....	36
30 Resistance to heat and fire .....	36
31 Resistance to rusting .....	37
32 Radiation, toxicity and similar hazards .....	37
Figure 101a) – Arrangement for heating test of appliances with supplementary heater – upflow application .....	38
Figure 101b) – Arrangement for heating test of appliances with supplementary heater – downflow application.....	39
Figure 102 – Supply circuit for locked-rotor test of a motor of the single-phase type – Revise as needed for three-phase test .....	40
Figure GG.1 – Unventilated area .....	63

Figure GG.2 – Mechanical ventilation .....	63
Table 3 – Temperature limits.....	19
Table 6 – Maximum winding temperature.....	24
Table 9 – Maximum abnormal temperature .....	29
Table GG.1 – Mass of refrigerants.....	57
Table GG.2 – Maximum charge (kg) (see Note 2 of GG.2) .....	62
Table GG.3 – Minimum room area (m <sup>2</sup> ) (see Note 2 of GG.2) .....	62
Annexes .....	41
Annex D (normative) Alternative requirements for protected motors .....	41
Annex I (normative) Motors having basic insulation that is inadequate for the rated voltage of the appliance .....	41
Annex AA (informative) Examples for operating temperatures of the appliance.....	42
Annex BB (normative) Selected information about refrigerants.....	43
Annex CC (informative) Transportation, marking and storage for units that employ flammable refrigerants .....	44
Annex DD (normative) Service operations .....	45
Annex EE (normative) Pressure Tests .....	52
Annex FF (normative) Leak simulation tests .....	55
Annex GG (normative) Charge limits, ventilation requirements and requirements for secondary circuits.....	57
Annex ZZ (informative) Variations to IEC 60335-2-40 for application in Australia and New Zealand .....	64
Bibliography .....	65
