

Australian Standard[®]

**Offshore containers and associated
lifting sets**

**Part 3: Periodic inspection, examination
and testing
(EN 12079-3:2006, MOD)**

This Australian Standard® was prepared by Committee ME-025, Lifting Tackle. It was approved on behalf of the Council of Standards Australia on 23 March 2009. This Standard was published on 19 May 2010.

The following are represented on Committee ME-025:

- Australian Business Limited
 - Australian Chamber of Commerce and Industry
 - Australian Forging Group
 - Australian Industry Group
 - Australian Maritime Safety Authority
 - Crane Industry Council of Australia
 - Department of Defence (Australia)
 - Engineers Australia
 - Industry and Investment NSW
 - Institute of Quarrying Australia
 - National Association of Testing Authorities, Australia
 - WorkCover New South Wales
 - Worksafe Victoria
-

This Standard was issued in draft form for comment as DR 07363.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia Committee ME-025, Lifting Tackle.

The objective of this Standard is to improve the alignment of Australian and international practice with regard to inspection, examination and testing of offshore containers and associated lifting sets.

The terms ‘normative’ and ‘informative’ are used in this Standard to define the application of the annex or appendix to which they apply. A normative annex or appendix is an integral part of a Standard, whereas an informative annex or appendix is only for information and guidance.

This Standard is an adoption, with national variations, of EN 12079-3:2006, *Offshore containers and associated lifting sets, Part 3: Periodic inspection, examination and testing*. The variations for application in Australia are listed in Appendix ZA.

As this Standard is reproduced from a European Standard, the following applies:

- (a) Its number appears on the cover and title page.
- (b) In the source text ‘EN 12079’ should read ‘AS EN 12079’.
- (c) A full point substitutes for a comma when referring to a decimal marker.

Listed below are Australian and Australian/New Zealand Standards with similar scopes (not identical) to the documents referenced in the European Standard*.

<i>Reference to International or European Standard</i>	<i>Australian or Australian/New Zealand Standard</i>
EN	
473	AS 3998
	Non-destructive testing— Qualification and certification of NDT personnel—General principles
571-1	AS 2062
	Non-destructive testing—Penetrant testing, Part 1: General principles
818-4	AS 3775.1
	Short link chain for lifting purposes—Safety, Part 4: Chain slings—Grade 8
818-6	AS 3775.2
	Short link chain for lifting purposes—Safety, Part 6: Chain slings—Specification for information for use and maintenance to be provided by the manufacturer
970	AS 3978, AS/NZS 1554.1, AS/NZS 1554.4, AS/NZS 1554.5, AS/NZS 1554.6, AS/NZS 1665
	Non-destructive examination of fusion welds—Visual examination
1289	AS/NZS 1554.1, AS/NZS 1554.4, AS/NZS 1554.5, AS/NZS 1554.6
	Non-destructive examination of welds—Penetrant testing of welds—Acceptance levels

* Appendix ZA lists where Australian and Australia/New Zealand Standards may be used.
