## Preface

This Standard was prepared by the Standards Australia Committee MB-024, Sustainable Procurement.

The objective of this Standard is to provide guidance to organizations, independent of their activity or size, on integrating sustainability within procurement. The document is applicable to any organization, public or private, regardless of its size and location. It is intended to be understood by any stakeholder involved in, or impacted by, procurement decisions and processes. The implementation of this document takes into account the particular context and characteristics of each organization, scaling the application of the concepts to suit the size of the organization.

This Standard is identical with, and has been reproduced from, ISO 20400:2017, *Sustainable procurement — Guidance*.

As this document has been reproduced from an International Standard, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms 'normative' and 'informative' are used in Standards to define the application of the appendices or annexes to which they apply. A 'normative' appendix or annex is an integral part of a Standard, whereas an 'informative' appendix or annex is only for information and guidance.

# Contents

|   |           |
|---|-----------|
| <b>Preface</b> .....  | <b>ii</b> |
| <b>Foreword</b> .....   | <b>v</b>  |
| <b>Introduction</b> .....   | <b>vi</b> |
| <b>1 Scope</b> .....  | <b>1</b>  |
| <b>2 Normative references</b> .....   | <b>1</b>  |
| <b>3 Terms and definitions</b> .....  | <b>1</b>  |
| <b>4 Understanding the fundamentals</b> .....   | <b>7</b>  |
| 4.1 Concept of sustainable procurement .....  | 7         |
| 4.2 Principles of sustainable procurement .....   | 7         |
