

Australian Standard[®]

Fire detection and alarm systems

Part 1: General and definitions

This Australian Standard® was prepared by Committee FP-002, Fire Detection, Warning, Control and Intercom Systems. It was approved on behalf of the Council of Standards Australia on 27 March 2007.

This Standard was published on 2 July 2007.

The following are represented on Committee FP-002:

- Audio Engineering Society
 - Australasian Fire Authorities Council
 - Australian Building Codes Board
 - Australian Electrical and Electronic Manufacturers Association
 - Australian Industry Group
 - Australian Institute of Building Surveyors
 - CSIRO Manufacturing & Infrastructure Technology
 - Deafness Forum of Australia
 - Department of Defence
 - Fire Protection Association Australia
 - Institute of Security Executives
 - National Electrical and Communications Association
 - National Fire Industry Association
 - Property Council of Australia
-

This Standard was issued in draft form for comment as DR 06702.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia Committee FP-002, Fire Detection, Warning, Control and Intercom Systems.

The objective of this Standard is to provide a general description of the components of fire detection and alarm system.

This Standard is identical with, and has been reproduced from ISO 7240-1:2005, *Fire detection and alarm systems, Part 1: General and definitions*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) Its number does not appear on each page of text and its identity is shown only on the cover and title page.
- (b) In the source text 'this international standard' should read 'this Australian Standard'.
- (c) A full point should be substituted for a comma when referring to a decimal marker.

References to International Standards should be replaced by equivalent Australian/New Zealand Standards, as follows:

<i>References to International Standard or other Publication</i>	<i>Australian/New Zealand Standard</i>
ISO	AS
7240 Fire detection and alarm systems (all parts)	7240 Fire detection and alarm systems (all parts)
12239 Environmental testing	12239 Environmental testing

CONTENTS

	<i>Page</i>
Preface.....	ii
Introduction	iv
1 Scope	1
2 General guidelines	1
3 Terms and definitions.....	3
4 Components of fire detection and alarm systems	15
5 Test determination	15
