

AS/NZS 3105:2014
(Incorporating Amendment No. 1)

AS/NZS 3105:2014

Australian/New Zealand Standard™

**Approval and test specification—
Electrical portable outlet devices**

AS/NZS 3105:2014

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-004, Electrical Accessories. It was approved on behalf of the Council of Standards Australia on 28 March 2014 and on behalf of the Council of Standards New Zealand on 21 March 2014.

This Standard was published on 28 April 2014.

The following are represented on Committee EL-004:

Australian Industry Group
Australian Chamber of Commerce and Industry
Consumer Electronics Suppliers Association
Consumers Federation of Australia
Electrical Compliance Testing Association
Electrical Regulatory Authorities Council
Engineers Australia
International Accreditation New Zealand
Ministry of Business, Innovation and Employment, New Zealand
New Zealand Manufacturers and Exporters Association
NSW Office of Fair Trading
Office of the Technical Regulator, SA
Plastics Industry Pipe Association of Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com or Standards New Zealand web site at www.standards.govt.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of Standards Australia or the New Zealand Standards Executive at the address shown on the back cover.

AS/NZS 3105:2014
(Incorporating Amendment No. 1)

Australian/New Zealand Standard™

Approval and test specification— Electrical portable outlet devices

Originated in Australia in part as AS 3105—1984 and AS 3197—1976.
Originated in New Zealand in part as NZSS 198:1939 and AS/NZS 3197:1993.
Previous editions in part as AS/NZS 3105:2012 and AS/NZS 3197:2005.
Jointly revised, amalgamated and designated AS/NZS 3105:2014.
Reissued incorporating Amendment No. 1 (June 2017).

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-004, Electrical Accessories, to supersede AS/NZS 3105:2012 *Approval and test specification—Electrical portable outlet devices*, and AS/NZS 3197:2005, *Approval and test specification—Portable electrical control or conditioning devices*, 2 years from the date of publication. During this period, AS/NZS 3105:2012, AS/NZS 3197:2005 and this Standard will run in parallel.

This Standard incorporates Amendment No. 1 (June 2017). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

The objective of this Standard is to provide Australian and New Zealand electrical industries with requirements and test methods for electrical portable outlet devices.

This Standard is one of a series of approval and test specifications to be read in conjunction with AS/NZS 3100, *Approval and test specification—General requirements for electrical equipment*. The purpose of this series is to outline the conditions that must be met to secure approval for the sale and use of electrical accessories in Australia and New Zealand. Only safety matters and related conditions are covered.

The essential safety requirements in AS/NZS 3820, *Essential safety requirements for electrical equipment* that could be applicable to electrical portable outlet devices are covered by this Standard.

This Standard was revised to include requirements for control and conditioning devices previously within the scope of AS/NZS 3197:2005.

This Standard does not include all the necessary provisions of a contract.

CONTENTS

	<i>Page</i>
1 SCOPE	4
2 APPLICATION.....	4
3 REFERENCED DOCUMENTS	5
4 DEFINITIONS	6
5 DESIGN AND CONSTRUCTION.....	7
6 MEANS OF CONNECTION	11
7 THERMOSTAT OR ENERGY REGULATOR.....	12
