

AS 2359.1—1995

Australian Standard[®]

Powered industrial trucks

Part 1: General requirements

This Australian Standard was prepared by Committee ME/26, Industrial Trucks. It was approved on behalf of the Council of Standards Australia on 10 March 1995 and published on 5 May 1995.

The following interests are represented on Committee ME/26:

Association of Employers of Waterside Labour
Australian Chamber of Commerce and Industry
Australian Industrial Truck Association
Department of Occupational Health, Safety and Welfare, W.A.
Metal Trades Industry Association of Australia
Occupational Health and Safety Authority, Victoria
Port of Melbourne Authority
WorkCover Authority of N.S.W.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 94058.

PREFACE

This Standard was prepared by the Standards Australia Committee on Industrial Trucks to supersede, in part, AS 2359.1—1985, *SAA Industrial Truck Code, Part 1: Design and manufacture*.

The AS 2359 series of Standards has been extensively modified. The series, which was previously published in two Parts, has now been expanded to incorporate new material and has been divided into 12 Parts.

Wherever practicable the relevant International Standards have been adopted; however, Parts 1, 2 and 12 continue to be locally developed, in the absence of suitable International Standards.

The Standard now becomes Part 1 of the new series, other Standards in this series are as follows:

- Part 2: Operation
- Part 3: Counterbalanced fork-lift trucks—Stability tests (replaces various Paragraphs of Appendix A)
- Part 4: Reach and straddle fork-lift trucks—Stability tests (supersedes Clause 3.4.2)
- Part 5: Control symbols (supersedes, in part, Clause 8)
- Part 6: Safety code (supersedes, in part, Clause 8)
- Part 7: Terminology (supersedes AS 1763)
- Part 8: Pallet stackers and high-lift platform trucks—Stability tests (supersedes, in part, Clause 8)
- Part 9: High-lift rider trucks—Overhead guards—Specification and testing (supersedes Clause 7.6)
- Part 10: Fork-lift trucks—Hook-on type fork arms—Vocabulary
- Part 11: Fork-lift trucks—Hook-on type fork arms and fork carriers—Mounting dimensions
- Part 12: Hazardous areas

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

This Standard does not cover industrial tractors. Because of the preliminary nature of the studies being undertaken by other standards bodies, the committee decided to provide for them in the future.

Visibility and noise level requirements are receiving considerable attention from ISO, but at this stage are not covered by this Standard. Lighting requirements are not included, but adequate lighting may be required to suit requirements of statutory authorities or to allow operation in areas of low light intensity.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	6
1.2 APPLICATION	6
1.3 INNOVATION	6
1.4 REFERENCED DOCUMENTS	6
1.5 DEFINITIONS	8
SECTION 2 RATING	
2.1 BASIS OF RATING	10
2.2 DESIGNATION OF RATED CAPACITY	10
2.3 DESIGNATION OF ALTERNATIVE CAPACITY	11
SECTION 3 STABILITY	
3.1 GENERAL	12
3.2 TESTING STABILITY	12
3.3 CALCULATING STABILITY	12
3.4 STABILITY CONDITIONS	12
SECTION 4 BRAKES	
4.1 PROVISION	22
4.2 MECHANICAL STRENGTH	22
4.3 BRAKE FORCE	22
4.4 PARKING BRAKES	22
4.5 SERVICE BRAKES	22
SECTION 5 TYRES AND RIMS	
5.1 SELECTION	25
5.2 BASIS OF LOADING	26
SECTION 6 FORK ARMS AND ATTACHMENTS	
6.1 GENERAL	27
6.2 MINIMUM CAPACITY	27
6.3 SPECIFIED CAPACITY	27
6.4 VERIFICATION OF DESIGN REQUIREMENTS	27
6.5 YIELD TEST	27
6.6 FORK EXTENSIONS	28
6.7 FORK LIFT ATTACHMENTS	29
SECTION 7 OPERATOR PROTECTION	
7.1 GENERAL	31
7.2 GUARDS FOR HOT PARTS	31
7.3 LOAD BACKREST EXTENSION	31
7.4 OVERHEAD GUARDS FOR HIGH-LIFT RIDER TRUCKS	31
7.5 OPERATOR RESTRAINTS	31
