AS 3900.2—1994/NZS 9000.2:1994/ISO 9000-2:1993

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR/8, Quality System. It was approved on behalf of the Council of Standards Australia on 11 March 1994 and on behalf of the Council of Standards New Zealand on 5 April 1994. It was published on 18 April 1994.

The following interests are represented on Committee QR/8:

Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Australian Information Industry Association
Australian Organization for Quality
Australian Road Research Board
Bureau of Steel Manufacturers of Australia
Department of Defence, Australia
Department of Industry Technology and Regional Development (Australia)
Department of Primary Industries and Energy (Australia)
Department of Transport and Communications (Australia)
Department of Transport, Queensland
Electricity Supply Association of Australia
Federal Chamber of Automotive Industries, Australia
Institute of Metals and Materials, Australia
Institute of Quality Assurance, Australia
Institution of Engineers Australia
Institution of Radio and Electronics Engineers Australia
Quality Society of Australasia
Roads and Traffic Authority N.S.W.
Royal Australian Chemical Institute
Telecom Australia
Testing Laboratory Registration Council of New Zealand
Total Quality Management Institute of Australia
Water Board, Sydney—Illawarra—Blue Mountains

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee QR/8, Quality Systems and it supersedes the draft international Standard which was issued in 1992 as interim Standard AS 3900.2(Int)/NZS 9000.2(Int).

The Standard is identical with ISO 9000-2:1993, *Quality management and quality assurance standards, Part 2: Generic guidelines for the application of ISO 9001, ISO 9002 and ISO 9003*, published by the International Organization for Standardization (ISO). Committee QR/8 provided input to the International Committee ISO/TC 176 in the preparation of ISO 9000-2.

This Standard is issued as a Joint Standard under the terms of the Active Cooperation Agreement between Standards Australia and Standards New Zealand.

Users of this Standard are advised that the guidelines refer to the 1987 edition of the ISO 9000 series of international Standards, which are current at the time of publication; however, a revised edition is anticipated in 1994. (Pending issue of the revised edition, the relevant Draft International Standards are available in Australia and New Zealand as DR 93263.)

For the purpose of this Joint Standard, the ISO text should be modified as follows:

- (a) **Terminology** The words 'Joint Australian/New Zealand Standard' should replace the words 'International Standard' wherever they appear.
- (b) **References** The references to International Standards should be replaced by references to the following Australian/New Zealand Standards:

<i>Reference to International Standard</i>		<i>Australian/New Zealand Standard</i>	
ISO

Appendix AA, Supplementary guidance questions for Australia and New Zealand, has been prepared by Committee QR/8 for use in conjunction with AS 3900.2/NZS 9000.2/ISO 9000-2 and is included in this edition. Clauses in Appendix AA are organized according to the clause structure of AS 3901/NZS 9001 for ease of cross-referencing and are prefixed with the letters AA.

The term 'informative' has been used in this Standard to define the application of Annex A and the Australian/New Zealand Appendix AA. An informative annex or appendix is for information and guidance only.

© Copyright – STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.
