

Australian/New Zealand Standard™

**Hand-held motor-operated electric
tools—Safety**

**Part 2.11: Particular requirements for
reciprocating saws (jig and sabre saws)**

AS/NZS 60745.2.11:2009

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002, Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 17 March 2009 and on behalf of the Council of Standards New Zealand on 13 March 2009.

This Standard was published on 29 May 2009.

The following are represented on Committee EL-002:

Australian Industry Group
Australian Retailers Association
Business New Zealand
Consumer Electronic Suppliers Association, Australia
Consumers' Federation of Australia
Electrical regulatory authorities, Australia
Electrical Compliance Testing Association
Electrical consultants
Engineers Australia
Association of Certification Bodies
Ministry of Consumer Affairs, New Zealand
New Zealand Electric Fence Energizer Manufacturers' Standards Group

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

CONTENTS

FOREWORD.....	4
1 Scope	6
2 Normative references	6
3 Terms and definitions	6
4 General requirements	6
5 General conditions for the tests	6
6 Void	7
7 Classification.....	7
8 Marking and instructions	7
9 Protection against access to live parts	7
10 Starting	7
11 Input and current	7
12 Heating	7
13 Leakage current	7
14 Moisture resistance	7
15 Electric strength	7
16 Overload protection of transformers and associated circuits	7
17 Endurance.....	8
18 Abnormal operation	8
19 Mechanical hazards.....	8
20 Mechanical strength	8
21 Construction.....	8
22 Internal wiring.....	8
23 Components.....	8
24 Supply connection and external flexible cords	9
25 Terminals for external conductors	9
26 Provision for earthing.....	9
27 Screws and connections	9
28 Creepage distances, clearances and distances through insulation	9
29 Resistance to heat, fire and tracking	9
30 Resistance to rusting.....	9
31 Radiation, toxicity and similar hazards	9
Annexes	12
Annex K (normative) Battery tools and battery packs	12
Annex L (normative) Battery tools and battery packs provided with mains connection or non-isolated sources	13
Annex ZZ (informative) Variations to IEC 60745-2-11 Ed 2.1 for application in Australia and New Zealand	14

Bibliography	15
Figure 101 – Test probe.....	10
Figure 102 – Typical designs of jig saws	11
Figure 103 – Typical designs of sabre saws	11
