

**AS 1004.1—1998**  
ISO 8512-1:1990

Australian Standard™

---

## **Surface plates for metrology**

### **Part 1: Cast iron**

---

[ISO title: Surface plates, Part 1: Cast iron]

This Australian Standard was prepared by Committee ME/27, Engineering Tolerance Systems, Metrology, Surface Quality. It was approved on behalf of the Council of Standards Australia on 17 April 1998 and published on 5 June 1998.

---

The following interests are represented on Committee ME/27:

The CMM Group

CSIRO, Division of Telecommunications and Industrial Physics

Engineering Employers Association, S.A.

Institution of Engineers Australia

Metal Trades Industry Association of Australia

National Association of Testing Authorities Australia

Society of Manufacturing Engineers

University of Queensland

Queensland University of Technology

University of Wollongong

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 97313.*
