ISO 8512-1:1990

Australian Standard™

Surface plates for metrology

Part 1: Cast iron

[ISO title: Surface plates, Part 1: Cast iron]

This Australian Standard was prepared by Committee ME/27, Engineering Tolerance Systems, Metrology, Surface Quality. It was approved on behalf of the Council of Standards Australia on 17 April 1998 and published on 5 June 1998.

The following interests are represented on Committee ME/27:

The CMM Group
CSIRO, Division of Telecommunications and Industrial Physics
Engineering Employers Association, S.A.
Institution of Engineers Australia
Metal Trades Industry Association of Australia
National Association of Testing Authorities Australia
Society of Manufacturing Engineers
University of Queensland
Queensland University of Technology
University of Wollongong

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 97313.
