

AS 2790—1989

Australian Standard[®]

**Electricity generating
sets—Transportable
(Up to 25 kW)**

[Title allocated by Defence Cataloguing Authority:
GENERATOR SETS, DIESEL OR GASOLINE ENGINE
(Up to 25 kW) NSC 6115]

This Australian Standard was prepared by Committee EL/9, Rotating Electrical Machinery. It was approved on behalf of the Council of Standards Australia on 16 March 1989 and published on 12 May 1989.

The following interests are represented on Committee EL/9:

Australian British Chamber of Commerce
Australian Electrical and Electronic Manufacturers' Association
Bureau of Steel Manufacturers of Australia
Confederation of Australian Industry
Department of Defence
Electricity Supply Association of Australia
The Institution of Engineers, Australia

Additional interests participating in preparation of Standard:

Department of Industrial Relations and Employment, N.S.W.
Manufacturers and Suppliers of Generating Sets
Natural Disasters Organisation
Telecom Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
