Australian/New Zealand Standard[®]

**Flickermeter—Functional and
design specifications**

AS/NZS 4376:1996

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL/34, Electric Waveform Distortion. It was approved on behalf of the Council of Standards Australia on 7 February 1996 and on behalf of the Council of Standards New Zealand on 29 January 1996. It was published on 5 May 1996.

The following interests are represented on Committee EL/34:

Association of New Zealand Appliance Distributors
Australasian Railway Association
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Bureau of Steel Manufacturers of Australia
Electricity Engineers Association of New Zealand
Electricity Supply Association of Australia
Institution of Engineers, Australia
Ministry of Commerce, New Zealand
Monash University, Australia
New Zealand Coordinating Committee on Power and Telecommunication Systems
Telstra Corporation, Australia
Transpower, New Zealand
University of Canterbury, New Zealand
University of Wollongong, Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
