

Australian Standard[®] 2547.1.11—1986

SEMICONDUCTOR DEVICES— Part 1.11—SECTIONAL SPECIFICATION FOR DISCRETE DEVICES (QC 750 000)

STANDARDS ASSOCIATION OF AUSTRALIA
Incorporated by Royal Charter

This Australian standard was prepared by Committee TE/12, Semiconductors and Devices. It was approved on behalf of the Council of the Standards Association of Australia on 5 November 1986 and published on 5 December 1986.

The following interests are represented on Committee TE/12:

Confederation of Australian Industry
Department of Defence
Department of Industry, Technology and Commerce
Institution of Radio and Electronics Engineers, Australia
Telecom Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian standards are subject to periodic review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all SAA publications will be found in the Catalogue of SAA Publications; this information is supplemented each month by SAA's journal 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn standards.

Suggestions for improvements to Australian standards, addressed to the head office of the Association, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This is a free preview. Purchase the entire publication at the link below:
