

AS/NZS 1680.2.4:1997

Australian/New Zealand Standard[®]

Interior lighting

Part 2.4: Industrial tasks and processes

AS/NZS 1680.2.4:1997

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee LG/1, Interior Lighting. It was approved on behalf of the Council of Standards Australia on 27 September 1996 and on behalf of the Council of Standards New Zealand on 19 August 1996. It was published on 5 January 1997.

The following interests are represented on Committee LG/1:

Association of Consulting Engineers Australia
Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Department of Public Works and Services, New South Wales
Energy Efficiency and Conservation Authority of New Zealand
Illuminating Engineering Society of Australia and New Zealand
Ministry of Commerce, New Zealand
Property Council of Australia
University of Sydney
WorkCover Authority of New South Wales

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee LG/1, Interior Lighting, to supersede (in part) AS 1680.2.0—1990 *Interior lighting*, Part 2.0: *Recommendations for specific tasks and interiors* and (in part) NZS 6703:1984 *Code of practice for interior lighting design*.

This Standard is issued as a joint Australian/New Zealand Standard to form part of a new series, the AS/NZS 1680.2 series, which will progressively replace the AS 1680.2 series. Existing Standards in the AS 1680.2 series* are to be revised and reissued as joint Australian/New Zealand Standards under the AS/NZS 1680.2 series.

The objective of this Standard is to set out recommendations aimed at the provision of a visual environment conducive to the safe and efficient performance of tasks associated with industrial activities and processes. It is intended to be read in conjunction with the general recommendations of AS 1680.1† and with other specific recommendations in the AS/NZS 1680.2 series which may apply, depending on the function of the interior space or the specific visual tasks involved.

This Standard parallels the structure of AS 1680.1 and contains recommendations that either add to or amend the recommendations of that Standard. While the Sections of this Standard correspond with those of AS 1680.1, the clauses within each Section are numbered consecutively and do not directly relate to the clauses in AS 1680.1.

The illustrations in Figure 3.3 and Figure 3.5(b) are copyright to the Commonwealth of Australia and are reproduced with permission from Department of Productivity, Physical Working Environment Branch, *Artificial light at work* (Occupational Safety and Health Working Environment Series No. 6), Australian Government Publishing Service, 1979.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

* The Standards published in the AS 1680.2 series are as follows:

- AS 1680.2.1—1993 Interior lighting—Part 2.1: Circulation spaces and other general areas
- AS 1680.2.2—1994 Interior lighting—Part 2.2: Office and screen-based tasks
- AS 1680.2.3—1994 Interior lighting—Part 2.3: Educational and training facilities

† AS 1680.1—1990 Interior lighting—Part 1: General principles and recommendations (to be revised as a joint Australian/New Zealand Standard)

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	5
1.2 APPLICATION	5
1.3 REFERENCED DOCUMENTS	5
1.4 DEFINITIONS	6
SECTION 2 GENERAL REQUIREMENTS FOR GOOD LIGHTING	7
SECTION 3 TASK VISIBILITY	
3.1 FACTORS THAT INFLUENCE TASK VISIBILITY	8
3.2 AUTOMATED PLANT OR PROCESSES	12
SECTION 4 DIRECTIONAL EFFECTS OF LIGHTING	
4.1 ENHANCING TASK VISIBILITY	13
SECTION 5 UNWANTED REFLECTIONS	
5.1 ADVERSE EFFECTS OF REFLECTIONS	13
5.2 REFLECTIONS IN SCREEN-BASED EQUIPMENT	13
SECTION 6 SURFACES	
6.1 LIMITED ILLUMINANCE CONTRIBUTION FROM INTERREFLECTION	14
SECTION 7 LIGHT SOURCE COLOUR	
7.1 SUBJECTIVE INFLUENCE OF SOURCE COLOUR APPEARANCE	14
7.2 DIMMING OF HIGH INTENSITY DISCHARGE LAMPS	14
7.3 MIXING OF DIFFERENT LAMPS	14
7.4 TASKS WITH SPECIAL REQUIREMENTS	14
SECTION 8 GLARE AND RELATED EFFECTS	
8.1 SELECTION OF GLARE CONTROL SYSTEM	15
SECTION 9 LIGHT SOURCES, LUMINAIRES AND CONTROL SYSTEMS	
9.1 SELECTION OF LIGHTING EQUIPMENT	16
SECTION 10 LIGHTING SYSTEMS	
10.1 EMERGENCY EVACUATION LIGHTING	18
10.2 SAFETY LIGHTING	18
10.3 STANDBY LIGHTING	18
10.4 SUPPLEMENTARY LIGHTING FOR MAINTENANCE TASKS	18
SECTION 11 LIGHTING DESIGN PROCEDURE	
11.1 ALLOWANCES IN DESIGN	19
