

AS/NZS 1269.1:2005
(Incorporating Amendment No. 1)

AS/NZS 1269.1:2005

Australian/New Zealand Standard™

Occupational noise management

**Part 1: Measurement and assessment
of noise immission and exposure**

AS/NZS 1269.1:2005

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee AV-003, Acoustics, Human Effects. It was approved on behalf of the Council of Standards Australia on 27 January 2005 and on behalf of the Council of Standards New Zealand on 11 February 2005.
This Standard was published on 6 April 2005.

The following are represented on Committee AV-003:

Association of Australian Acoustical Consultants
Association of Consulting Engineers Australia
Australian Acoustical Society
Australian Chamber of Commerce and Industry
Australian Hearing
Department of Consumer & Employment Protection, WorkSafe Division, W.A.
Department of Labour, New Zealand
N.S.W. Rural Fire Service
New South Wales Nurses Association
New Zealand Audiological Society
Royal Institution of Naval Architects
Safety Institute of Australia (Incorporated)
Victorian WorkCover Authority
WorkCover New South Wales

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 04035.

AS/NZS 1269.1:2005
(Incorporating Amendment No. 1)

Australian/New Zealand Standard™

Occupational noise management

Part 1: Measurement and assessment of noise immission and exposure

Originated in Australia as part of AS 1269—1976.
Previous edition AS/NZS 1269.1:1998.
Second edition 2005.
Reissued incorporating Amendment No. 1 (September 2005)

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee AV-003, Acoustics, Human Effects, to supersede AS/NZS 1269.1:1998, *Occupational noise management, Part 1: Measurement and assessment of noise immission and exposure*.

This Standard incorporates Amendment No. 1 (September 2005). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

This is Part 1 in a series of Standards as follows:

AS/NZS

- 1269 Occupational noise management
- 1269.0 Part 0: Overview and general requirements
- 1269.1 Part 1: Measurement and assessment of noise immission and exposure (this Standard)
- 1269.2 Part 2: Noise control management
- 1269.3 Part 3: Hearing protector program
- 1269.4 Part 4: Auditory assessment

The objective of this series of Standards is to provide requirements and guidance on all facets of occupational noise management. It is recommended that the reader refer to all Parts of AS/NZS 1269 to better understand all relevant terminology and objectives of occupational noise management.

The objective of this Part is to provide requirements and guidance on the types of noise assessment which may be required, the general objectives of an assessment and the instrumentation and procedures needed to carry it out.

The objective of this revision is to confirm the existing Standard with a few minor changes.

Where the number of an IEC Standard is provided in brackets after an Australian Standard number the IEC Standard applies to New Zealand only and the Australian Standard applies to Australia only.

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
1 SCOPE.....	4
2 REFERENCED DOCUMENTS.....	4
3 DEFINITIONS.....	5
4 MEASURES OF NOISE EMISSION, IMMISSION AND EXPOSURE	7
5 OBJECTIVE OF NOISE ASSESSMENTS.....	9
6 TYPES OF NOISE ASSESSMENT.....	10
7 INSTRUMENTATION AND CALIBRATION	11
8 NOISE MEASUREMENT PROCEDURES.....	13
9 NOISE EVALUATION	17
10 CHECKLISTS	20
 APPENDICES	
A COMPETENCY REQUIREMENTS FOR PEOPLE UNDERTAKING DETAILED NOISE ASSESSMENTS.....	23
B TOPICS RECOMMENDED FOR INCLUSION IN A TRAINING COURSE FOR NOISE ASSESSMENT.....	24
C RECOMMENDED PROCEDURES FOR MEASUREMENT OF SOUND PRESSURE LEVELS FROM HEADPHONES OR INSERT EARPHONES	27
D GENERAL INFORMATION ON AUXILIARY MEASURING DEVICES.....	30
E PROCEDURE FOR DETERMINATION OF $E_{A,T}$, $L_{Aeq,T}$ AND $L_{Aeq,8h}$	33
F RELATIONSHIP BETWEEN $L_{Aeq,8h}$ AND $E_{A,T}$ VALUES.....	41
G NOISE ASSESSMENT REPORT PROFORMA	42
