

Australian Standard™

**Radiography of metals—Image quality indicators (IQI) and recommendations for their use**

This Australian Standard was prepared by Committee MT-007, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of Standards Australia on 19 April 2006.  
This Standard was published on 18 May 2006.

---

The following are represented on Committee MT-007:

Australian Railway Association  
Australian Aerospace Non-Destructive Testing Committee  
Australian Industry Group  
Australian Institute for Non-Destructive Testing  
Australian Nuclear Science & Technology Organisation  
Australian Pipeline Industry Association  
Bureau of Steel Manufacturers of Australia  
Engineers Australia  
National Association of Testing Authorities Australia  
New Zealand Non-Destructive Testing Association  
TestSafe Australia  
Victorian WorkCover Authority  
Welding Technology Institute of Australia

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at [mail@standards.org.au](mailto:mail@standards.org.au), or write to the Chief Executive, Standards Australia, GPO Box 476, Sydney, NSW 2001.

---

*This Standard was issued in draft form for comment as DR 05544.*

**RECONFIRMATION NOTICE**

Technical Committee MT-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 22 November 2016.

The following are represented on Technical Committee MT-007:

Australasian Thermographers Association  
Australian Aerospace Non-Destructive Testing Committee  
Australian Institute for Non-Destructive Testing  
Australian Nuclear Science & Technology Organisation  
AUSTROADS  
Bureau of Steel Manufacturers of Australia  
Engineers Australia  
Institute of Electrical Inspectors  
National Association of Testing Authorities Australia  
New Zealand Non-Destructive Testing Association  
TestSafe Australia  
Welding Technology Institute of Australia  
WorkSafe Victoria

## NOTES

Australian Standard™

**Radiography of metals—Image quality indicators (IQI) and recommendations for their use**

Originated as AS B262—1968.  
Previous edition AS 2177.2—1982.  
Revised and redesignated as AS 2314—2006.
