

AS/NZS 60335.2.2:2002
(Incorporating Amendment Nos 1 and 2)

AS/NZS 60335.2.2:2002

Australian/New Zealand Standard™

**Household and similar electrical
appliances—Safety**

**Part 2.2: Particular requirements for
vacuum cleaners and water-suction
cleaning appliances
(IEC 60335-2-2 Ed 5.2, MOD)**

AS/NZS 60335.2.2:2002

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002, Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 8 October 2002 and on behalf of the Council of Standards New Zealand on 2 October 2002.

This Standard was published on 22 November 2002.

The following are represented on Committee EL-002:

Australian Industry Group
Australian Retailers Association
Australian Electrical and Electronic Manufacturers Association
Business New Zealand
Consumer Electronic Suppliers Association, Australia
Consumers' Federation of Australia
Electrical Regulatory Authorities, Australia
Electrical Compliance Testing Association
Electrical Consultants
Electricity Supply Association of Australia
Ministry of Consumer Affairs, New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope	7
2 Normative references	7
3 Definitions	8
4 General requirement.....	9
5 General conditions for the tests	10
6 Classification.....	10
7 Marking and instructions	10
8 Protection against access to live parts	11
9 Starting of motor-operated appliances	12
10 Power input and current.....	12
11 Heating	12
12 Void	12
13 Leakage current and electric strength at operating temperature	12
14 Transient overvoltages	13
15 Moisture resistance	13
16 Leakage current and electric strength	14
17 Overload protection of transformers and associated circuits	14
18 Endurance.....	14
19 Abnormal operation	14
20 Stability and mechanical hazards	15
21 Mechanical strength	16
22 Construction.....	17
23 Internal wiring.....	18
24 Components	18
25 Supply connection and external flexible cords	18
26 Terminals for external conductors	19
27 Provision for earthing.....	19
28 Screws and connections	19
29 Clearances, creepage distances and solid insulation	19
30 Resistance to heat and fire	19
31 Resistance to rusting	19
32 Radiation, toxicity and similar hazards	19

Annexes	23
Annex B (normative) Appliances powered by rechargeable batteries	23
Annex C (normative) Ageing test on motors.....	25
Annex ZZ (informative) Variations to IEC 60335-2-2 Ed 5.2 for application in Australia and New Zealand.....	26
Figure 101 – Apparatus for testing the abrasion resistance of current-carrying hoses	20
Figure 102 – Apparatus for testing the resistance to flexing of current-carrying hoses	21
Figure 103 – Configuration of the hose for the freezing treatment	22
Figure 104 – Flexing positions for the hose after removal from the freezing cabinet.....	22
