VOCABULARY**

**Chapter 301—GENERAL TERMS ON
MEASUREMENTS
IN ELECTRICITY**

**Chapter 302—ELECTRICAL
MEASURING
INSTRUMENTS**

**Chapter 303—ELECTRONIC
MEASURING
INSTRUMENTS**

This Australian Standard was prepared by Committee TE/13, Symbols, Units & Quantities for Electrotechnology. It was approved on behalf of the Council of the Standards Association of Australia on 15 March 1988 and published on 17 June 1988.

The following interests are represented on Committee TE/13:

Australian Electrical and Electronic Manufacturers Association
Confederation of Australian Industry
Department of Administrative Services—Construction Group (Commonwealth)
Department of Defence
Department of Technical and Further Education, N.S.W., Victoria and
South Australia
Department of Transport and Communications (Commonwealth)
Electricity Supply Association of Australia
Institute of Draftsmen, Australia
Institution of Radio and Electronics Engineers, Australia
Melbourne & Metropolitan Board of Works
Queensland Chamber of Mines
Railways of Australia Committee
Royal Melbourne Institute of Technology
Telecom Australia
The Association of Consulting Engineers, Australia
The technical press

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Association's Committee on Symbols, Units and Quantities for Electrotechnology, under the authority of both the Telecommunications and Electronics Standards Board and the Electrical Standards Board. The three new chapters of this Standard (viz: Chapters 301, 302, 303) supersede AS 1852(20)—1970, *International Electrotechnical Vocabulary, Scientific and industrial measuring instruments*, which was withdrawn in March 1987.

This Standard is identical with and has been reproduced from IEC 50(301, 302, 303)—1978. Acknowledgement is accordingly made to the International Electrotechnical Commission for this assistance.

This edition of this Standard constitutes a revised and extended version of AS 1852(20)—1970. This extension essentially concerns the field of electronic instruments where the advent of digital techniques has had important repercussions on the measuring concepts themselves.

This Standard is one of the AS 1852 series of Standards. In the past, this series has consisted of direct endorsements of the IEC 50 series of the International Electrotechnical Vocabulary. In future, newly issued parts of IEC 50, where appropriate, will be issued as Australian Standards, i.e. not endorsements. The full text of the definitions in English, French and Russian has been included as some definitions are considered to be incomplete when produced in one language.

The purpose of the AS 1852 series is to provide a glossary of terms used in electrical engineering. The series lists terms in English, French and Russian, and in some cases Spanish. It is intended that other Australian Standards will refer to AS 1852 and not repeat any definitions.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

CONTENTS

	<i>Page</i>
CHAPTER 301: GENERAL TERMS ON MEASUREMENTS IN ELECTRICITY	
SECTION	
301-01 METHODS OF MEASUREMENT	4
301-02 BASIC TERMS	6
301-03 GENERAL TERMS RELATING TO THE OPERATION OR THE FUNCTION	12
301-04 MEASURING INSTRUMENTS	13
301-05 MISCELLANEOUS DEVICES	18
301-06 TERMS RELATING TO ACCESSORIES	21
301-07 TERMS RELATING TO MEASURING INSTRUMENTS	22
301-08 TERMS RELATING TO THE SPECIFICATION OF PERFOR- MANCE	28
301-09 TERMS RELATING TO TECHNICAL CHARACTERISTICS . . .	31
301-10 PERFORMANCE	33
CHAPTER 302: ELECTRICAL MEASURING INSTRUMENTS	
SECTION	
302-01 GENERAL TERMS RELATING TO THE PRINCIPLE OF OPERATION	35
302-02 GENERAL TERMS RELATING TO CONSTRUCTIONAL OR OPERATIONAL DETAILS	37
302-03 DETECTING AND INDICATING INSTRUMENTS	42
302-04 ELECTRIC ENERGY METERS	45
302-05 BRIDGES	47
302-06 CONSTRUCTIONAL ELEMENTS	48
302-07 TERMS RELATING TO TECHNICAL CHARACTERISTICS . . .	49
302-08 TERMS RELATING TO THE PERFORMANCE	50
CHAPTER 303: ELECTRONIC MEASURING INSTRUMENTS	
SECTION	
303-01 GENERAL TERMS	53
303-02 INPUTS AND OUTPUTS	54
303-03 ELECTRONIC MEASURING INSTRUMENTS AND THEIR COMPONENTS PARTS	58
303-04 TERMS CONCERNING OSCILLOSCOPES	61
303-05 TERMS CONCERNING STABILIZED SUPPLY APPARATUS . .	65
303-06 TERMS CONCERNING SIGNAL GENERATORS	67
303-07 TERMS CONCERNING DIGITAL INSTRUMENTS	70
303-08 PERFORMANCE	73
INDEX	77
