ATS 5387.1—2006

Australian Technical Specification

Guidelines—Fire safety engineering

Part 1: Application of fire performance concepts to design objectives

This Australian Technical Specification was prepared by Committee FP-018, Fire Safety. It was approved on behalf of the Council of Standards Australia on 5 May 2006.

This Technical Specification was published on 29 May 2006.

The following are represented on Committee FP-018:

AWTA Textile Testing
Australian Fire Authorities Council
Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Industry Group
Australian Institute of Building
Building Research Association of New Zealand Inc
Bureau of Steel Manufacturers of Australia
CSIRO Manufacturing & Infrastructure Technology
Fire Protection Association Australia
Fire Protection Association New Zealand
Plastics and Chemicals Industries Association Incorporated
Property Council of Australia
Society of Fire Protection Engineers NZ

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards[™] and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to the Chief Executive, Standards Australia, GPO Box 476, Sydney, NSW 2001.
