[IEC title: Medical electrical equipment-Part 2-16: Particular requirements for the safety of haemodialysis, haemodiafiltration and haemofiltration equipment]

## AS/NZS 3200.2.16:1999

---

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee HE/3, Medical Electrical Equipment. It was approved on behalf of the Council of Standards Australia on 1 March 1999 and on behalf of the Council of Standards New Zealand on 1 April 1999. It was published on 5 June 1999.

---

The following interests are represented on Committee HE/3:

Australasian College of Physical Scientists and Engineers in Medicine  
Australasian Society for Ultrasound in Medicine  
Australian & New Zealand College of Anaesthetists  
Australian Chamber of Commerce and Industry  
Australian Dental Association  
Australian Institute of Radiography  
Australian Radiation Laboratory  
Australian Society of Anaesthetists  
College of Biomedical Engineering Institution of Engineers Australia  
Commonwealth Department of Health and Family Services  
Department of Defence (Australia)  
Health Industry Suppliers Association of New Zealand  
Medical Industry Association of Australia  
Ministry of Commerce New Zealand  
Royal Australasian College of Surgeons  
Royal Australasian College of Physicians  
Royal Australasian College of Radiologists

---

**Review of Standards.** To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee HE/3, Medical Electrical Equipment to supersede AS 3200.2.16—1992.

This Particular Standard is identical with and has been reproduced from IEC 60601-2-16:1998, *Medical electrical equipment, Part 2-16: Particular requirements for the safety of haemodialysis, haemodiafiltration and haemofiltration equipment* which modifies and supplements the corresponding Clauses of IEC 60601-1:1988, *Medical electrical equipment, Part 1: General requirements for safety* which has been adopted as AS/NZS 3200.1.0:1998, hereinafter referred to as the General Standard.

The General Standard details electrical safety requirements for all types of medical electrical equipment. A Particular Standard details additional safety requirements for a related group of medical electrical devices. A Collateral Standard details additional safety requirements for a range of devices within the scope of the General Standard which may not be related but share common problems.

In the text of this Standard, the following print types are used:

- (a) Requirements, compliance with which can be tested and definitions  
..... in large roman type.
  - (b) Explanations, advice, introductions, general statements, exceptions and references  
..... in smaller roman type.
  - (c) Headings of sub-clauses and text specifications  
..... in italic type.
  - (d) Terms used throughout the Standard, which have been defined in Clause 2 and which are also in the index ..... IN SMALL CAPITALS.
- \* An asterisk is placed before each Clause for which rationale is included in Annex AA.

As this publication has been reproduced from an international Standard, the following modifications apply:

- (i) Its number does not appear on each page of text and its identity is shown on the cover and title page.
- (ii) The words ‘this Australia/New Zealand Standard’ should replace the words ‘this International Standard’ wherever they appear.
- (iii) Substitute a full point for a comma where it appears as a decimal marker.

The references to international Standards should be replaced by references to the following Australian or Australian/New Zealand Standards:

<i>Reference to International Standard or other publication</i>		<i>Australian or Joint Australian/New Zealand Standard</i>

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the annex to which they apply. A ‘normative’ annex is an integral part of a Standard, whereas an ‘informative’ annex is only for information and guidance.

© Copyright — STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.
