

## **Safety of machinery**

# **Part 3407: Safety of packaging machines—Group and secondary packaging machines**

This Australian Standard is the identical adoption of EN 415-7:2006+A1:2008, Safety of packaging machines — Part 7: Group and secondary packaging machines, with the permission of the European Committee for Standardization - CEN, Avenue Marnix 17, B-1000 Brussels, Belgium

AS 4024.3407:2018

This Australian Standard® was prepared by SF-041, Safety of Machinery. It was approved on behalf of the Council of Standards Australia on 7 February 2018.

This Standard was published on 3 May 2018.

The following are represented on Committee SF-041:

Australian Industry Group  
Australian Manufacturing Workers' Union  
Australian Packaging and Processing Machinery Association  
Engineers Australia  
Human Factors and Ergonomics Society of Australia  
Institute of Instrumentation, Control and Automation, Australia  
NSCA Foundation  
NSW Department of Industry, Skills and Regional Infrastructure Development  
Safety Institute of Australia  
SafeWork NSW  
Swinburne University of Technology  
University of Melbourne  
Workplace Health and Safety Queensland  
WorkSafe Victoria

This Standard was issued in draft form for comment as DR AS EN 4024.3407:2017.

## Preface

This Standard was prepared by the Australian members of the Joint Standards Australia/Standards New Zealand Committee SF-041, Safety of Machinery.

The objective of this Standard is to specify the safety requirements for machine design, construction, installation, commissioning, operation, adjustment, maintenance and cleaning of group and secondary packaging machines. This applies to group and secondary packaging machines and the collating systems associated with them.

This Standard is identical with, and has been reproduced from, EN 415-7:2006+A1:2008, *Safety of packaging machines, Part 7: Group and secondary packaging machines*.

As this document has been reproduced from an International Standard, the following applies:

- (a) In the source text 'this European Standard' should read 'this Australian Standard'.
- (b) A full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms 'normative' and 'informative' are used in Standards to define the application of the appendices or annexes to which they apply. A 'normative' appendix or annex is an integral part of a Standard, whereas an 'informative' appendix or annex is only for information and guidance.
