### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.saiglobal.com.au](http://www.saiglobal.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

---

*This Standard was issued in draft form for comment as DR 5762.*

## NOTES

**CONTENTS**

Referenced documents .....	2
Related Standards .....	3
Foreword .....	4
Outcome statement.....	4

**SECTION 1 – SCOPE AND GENERAL**

1.1 Scope .....	5
1.2 Exceptions.....	5
1.3 Interpretation .....	5
1.4 General .....	6
1.5 Definitions .....	6

**SECTION 2 – INSPECTION AND TESTS**

2.1 General .....	7
2.2 Tag removal .....	7
2.3 Personnel .....	7
2.4 Inspection and testing .....	7
2.5 Action resulting from inspection and testing .....	8
2.6 Documentation requirements.....	8

**APPENDICES**

A Schedule of additional items for checking (Normative).....	9
B General safety factors for various equipment types (Informative).....	21
C Examples of labels (Informative).....	24
D Regulatory application of this Standard (Informative).....	25

**TABLES**

A1 Additional items to be checked .....	9
B1 Safety risks and safety considerations .....	21

**FIGURES**

C1 Example of a label for non-compliant equipment.....	24
C2 Example of a label for compliant equipment.....	24
