

Lifts, escalators and moving walks

Part 5: Escalators and moving walks

AS 1735.5:2015, Lifts, escalators and moving walks, Part 5: Escalators and moving walks, is an identical adoption of EN 115-1:2008, Safety of escalators and moving walks, Part 1: Construction and installation, and is reproduced with the permission of CEN, Avenue Marnix 17, B-1000 Brussels, Belgium. All exploitation rights of the European Standards in any form and by any means are reserved world-wide to CEN and its National Members, and no reproduction may be undertaken without express permission in writing by CEN through Standards Australia Limited.

This Australian Standard® was prepared by Committee ME-004, Lift Installations. It was approved on behalf of the Council of Standards Australia on 18 February 2015. This Standard was published on 27 March 2015.

The following are represented on Committee ME-004:

- Association of Consultants in Access Australia
 - Australian Building Codes Board
 - Australian Chamber of Commerce and Industry
 - Australian Elevator Association
 - Australian Industry Group
 - Australian Institute of Building Surveyors
 - Communications, Electrical and Plumbing Union—Electrical Division
 - Engineers Australia
 - Lift Engineering Society of Australia
 - Property Council of Australia
 - Safe Work Australia
-

This Standard was issued in draft form for comment as DR AS 1735.5:2014.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

Australian Standard[®]

Lifts, escalators and moving walks

Part 5: Escalators and moving walks

First published as part of AS CA3—1935.
Tenth edition 1953.
AS CA3—1953 revised and redesignated in part as AS CA3.5—1970.
AS CA3.6 first published 1970.
AS CA3.5—1970 revised and redesignated as AS 1735.5—1975.
AS CA3.6—1970 revised and redesignated as AS 1735.6—1975.
Fourth edition AS 1735.5—1996.
Fourth edition AS 1735.6(Int)—1996.
AS 1735.5—1996 and part of AS 1735.6(Int)—1996 revised, amalgamated and redesignated as AS 1735.5—2001.
Seventh edition 2015.

PREFACE

This Standard was prepared by the Standards Australia Committee ME-004, Lift Installations, to supersede AS 1735.5—2003, *Lifts, escalators and moving walks, Part 5: Escalators and moving walks (BS EN 115:1995, MOD)*.

The objective of this Standard is to deal with significant hazards and risks associated with the installation, operation, maintenance and inspection relevant to escalator and moving walk designs.

This Standard is identical with, and has been reproduced from EN 115-1:2008, *Safety of escalators and moving walks, Part 1: Construction and installation*, and its Amendment 1:2010, which has been incorporated into the source text.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text ‘this Standard’ should read ‘this Australian Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

None of the normative references in the source document have been adopted as Australian or Australian/New Zealand Standards.

For wiring of escalators or moving walks see AS/NZS 3000, *Electrical installations (known as the Australian/New Zealand Wiring Rules)*.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the annex to which they apply. A ‘normative’ annex is an integral part of a Standard, whereas an ‘informative’ annex is only for information and guidance.

CONTENTS

1	Scope	6
2	Normative references	6
3	Terms and definitions - Symbols and abbreviations	8
3.1	Terms and definitions	8
3.2	Symbols and abbreviations	11
4	List of significant hazards	13
4.1	General.....	13
4.2	Mechanical hazards	13
4.3	Electric hazards	14
4.4	Radiation hazards	14
4.5	Fire hazard.....	14
4.6	Hazards generated by neglecting ergonomic principles in machinery design.....	15
4.7	Hazard generated by failure of control circuit.....	15
4.8	Hazards generated by break-up during operation	15
4.9	Slipping, tripping and falling hazards.....	15
4.10	Hazards specific for this type of machine.....	16
5	Safety requirements and/or protective measures	16
5.1	General.....	16
5.2	Supporting structure (truss) and enclosure	16
5.3	Steps, pallets, belt	18
5.4	Drive unit	22
5.5	Balustrade	27
5.6	Handrail system	31
5.7	Landings	32
5.8	Machinery spaces, driving station and return stations	33
5.9	Fire protection.....	35
5.10	Transportation.....	35
5.11	Electric installations and appliances.....	42
5.12	Protection against electric faults - controls.....	46
6	Verification of the safety requirements and/or protective measures.....	53
6.1	General.....	53
6.2	Specific data, test reports and certificates	55
7	Information for use	56
