

Australian Standard™

**Acoustics—Methods for the
measurement of railbound vehicle noise**

This Australian Standard was prepared by Committee EV-010, Acoustics, Community Noise. It was approved on behalf of the Council of Standards Australia on 29 March 2002 and published on 7 May 2002.

The following interests are represented on Committee EV-010:

Air Services Australia
The Association of Consulting Engineers Australia
Australian Acoustical Society
Australian and New Zealand Environment and Conservation Council
Australian Hearing
AUSTROADS
Bureau of Steel Manufacturers of Australia
Consumers Federation of Australia
Council of the City of Sydney
CSIRO Building, Construction and Engineering
Department of Defence, Australia
The Institute of Marine Engineers Australia/New Zealand Division
Ministry of Health, New Zealand
New Zealand Acoustical Society
The Royal Australian Institute of Architects
The University of Sydney

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

This is a free preview. Purchase the entire publication at the link below:
