Australian/New Zealand Standard™

Information technology—Process assessment

Part 3: Guidance on performing an assessment

AS/NZS ISO/IEC 15504.3:2004

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee IT-015, Software and Systems Engineering. It was approved on behalf of the Council of Standards Australia on 14 May 2004 and on behalf of the Council of Standards New Zealand on 11 June 2004.
It was published on 17 September 2004.

The following are represented on Committee IT-015:

Australian Computer Society
Australian Information Industry Association
Australian Society for Technical Communication (NSW)
Australian Software Metrics Association
Griffith University
New Zealand Organisation for Quality
Software Engineering Australia (Qld)
Software Quality Association (ACT)
Software Quality Association (NSW)
Sydney SPIN Group (Software Process Improvement Network)
Systems Engineering Society of Australia
The University of New South Wales
University of South Australia
University of Technology, Sydney

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee IT-015, Software and Systems Engineering to supersede AS 15504.3(Int)—1998, *Information technology—Software process assessment, Part 3: Performing an assessment*.

This Standard is identical with, and has been reproduced from ISO/IEC 15504-3:2004, *Information technology—Process assessment—Part 3: Guidance on performing an assessment*.

The objective of this Standard is to provide guidance on meeting the minimum set of requirements for performing an assessment contained in AS/NZS ISO/IEC 15504.2.

This Standard is Part 4 of AS/NZS 15504, *Information technology—Process assessment*, which is published in parts as follows:

Part 2: Performing an assessment

Part 3: Guidance on performing an assessment (this Standard)

Part 4: Guidance on use for process improvement and process capability determination

As this Standard is reproduced from an international standard, the following applies:

- (a) Its number appears on the cover and title page while the international standard number appears only on the cover
- (b) In the source text ‘this part of ISO/IEC 15504’ should read ‘this Australian/New Zealand Standard’.
- (c) A full point substitutes for a comma when referring to a decimal marker.

References to International Standards should be replaced by references to Australian or Australian/New Zealand Standards, as follows:

<i>Reference to International Standard</i>		<i>Australian/New Zealand Standard</i>

Introduction	v
1 Scope.....	1
2 Normative references	1
3 Terms and definitions.....	1
4 Overview of Process Assessment	2
4.1 Introduction	2
4.2 Assessment process	2
4.3 Measurement Framework for Process Capability	3
4.4 Process Reference Model	3
4.5 Process Assessment Model.....	3
4.6 Assessment Tools	3
4.7 Competency of assessment team	4
4.8 Assessment approaches.....	4
4.9 Success factors for process assessment	4
5 Guidance on Requirements for Performing an Assessment.....	5
5.1 General.....	5
5.2 The assessment process activities	5
5.3 Roles and responsibilities.....	9
5.4 Defining the initial assessment input	10
5.5 Recording the assessment output.....	14
5.6 Selecting a Documented Assessment Process	14
6 Measurement Framework for Process Capability	15
6.1 Level 0: Incomplete process	16
6.2 Level 1: Performed process	16
6.3 Level 2: Managed process	17
6.4 Level 3: Established process.....	20
6.5 Level 4: Predictable process	22
6.6 Level 5: Optimizing process	25
6.7 Rating process attributes.....	27
6.8 Process capability level model.....	29
7 Process Reference Models	30
7.1 Interpreting The Requirements For A Process Reference Model.....	31
7.2 Selecting Process Reference Models	33
8 Process Assessment Models	34
8.1 Interpreting the requirements for a Process Assessment Model.....	34
8.2 Selection of a Process Assessment Model.....	37
9 Selecting and Using Assessment Tools.....	39
10 Guidance on Competency of Assessors	42
10.1 Overview	42
10.2 Gaining and maintaining competence	43
11 Guidance on Verification of Conformity.....	43
11.1 Verifying conformity of Process Reference Models.....	44
11.2 Verifying conformity of Process Assessment Models.....	44
11.3 Verifying conformity of process assessments	45
