

Handbook

Earth potential rise—Protection of telecommunications network users, personnel and plant—Worked examples for the application guide

HB 219:2006

This Joint Australian/New Zealand Handbook was prepared by Joint Technical Committee ET-007, Coordinating Committee on Power and Telecommunications. It was approved on behalf of the Council of Standards Australia on 13 September 2006 and on behalf of the Council of Standards New Zealand on 22 September 2006.

This Handbook was published on 24 November 2006.

The following are represented on Committee ET-007:

Australian Communications Authority
Cable and Wireless Optus (Australia)
NZCCPTS (New Zealand)
Energy Supply Association of Australia
Energy Australia
Integral Energy
Ministry of Economic Development (NZ)
Adapt (Australia)
South Australian Independent Industry Regulator
SPI Powernet
Telecom NZ
Telstra (Australia)
Transgrid
Transpower NZ
Vector Ltd (New Zealand)

Additional Interests:

Energex
Queensland Rail
Electranet (South Australia)

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 04470.

HB 219:2006 (Reconfirmed) 2020-08-21

STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

RECONFIRMATION

OF

HB 219:2006

**Earth potential rise—Protection of telecommunications network users,
personnel and plant—Worked examples for the application guide**

RECONFIRMATION NOTICE

Major stakeholders of this publication have reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 19 September 2017.

Approved for reconfirmation in New Zealand on behalf of the New Zealand Standards Approval Board on 18 June 2020.
