Quality management systems— Requirements

Standards Australia

STANDARDS
NEW ZEALAND
Pūrerehua Aotearoa

AS/NZS ISO 9001:2000

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR-008, Quality Management Systems. It was approved on behalf of the Council of Standards Australia on 30 November 2000 and on behalf of the Council of Standards New Zealand on 21 November 2000. It was published on 15 December 2000.

The following interests are represented on Committee QR-008:

Australian Association of Certification Bodies
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Australian Industry Group
Australian Information Industry Association
Australian Institute of Petroleum
Australian Organization for Quality
Bureau of Steel Manufacturers of Australia
Commonwealth Department of Transport and Regional Services
Department of Agriculture, Fisheries and Forestry (Commonwealth)
Department of Defence (Australia)
Department of Industry, Science and Resources (Commonwealth)
Federal Chamber of Automotive Industries
Institute of Materials Engineering Australasia
Institution of Engineers Australia
The IREE Society
Main Roads Department, Queensland
Master Builders Australia
Quality Society of Australasia
The Royal Australian Chemical Institute
Sydney Water Corporation
Telarc New Zealand

Additional interests participating in the preparation of this Standard:

Association of Consulting Engineers of New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

Australian/New Zealand Standard™

Quality management systems— Requirements

Originated in Australia as AS 3901—1987/ISO 9001:1990, AS 3902—1987/ISO 9002:1990 and AS 3903—1987/ISO 9003:1990.

Originated in New Zealand as NZS 5601:1987, NZS 5602:1987 and NZS 5603:1987.

Previous editions AS/NZS ISO 9002:1994, AS/NZS ISO 9003:1994 and AS/NZS ISO 9001(Int):2000.

AS/NZS ISO 9002:1994, AS/NZS ISO 9003:1994 and AS/NZS ISO 9001(Int):2000 jointly revised, amalgamated and redesignated as AS/NZS ISO 9001:2000.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee QR-008, Quality Management Systems.

This Standard is identical with and has been reproduced from ISO 9001:2000, *Quality management systems—Requirements*, published by the International Organization for Standardization (ISO), which was prepared by ISO Technical Committee TC 176, Quality Management and Quality Assurance, Subcommittee SC 2, Quality Systems. Committee QR-008 provided input to the ISO Committee during the preparation of this revision.

This third edition of AS/NZS ISO 9001:2000 cancels and replaces the Interim Standard, AS/NZS ISO 9001(Int):2000. It also replaces AS/NZS ISO 9001:1994, AS/NZS ISO 9002:1994 and AS/NZS ISO 9003:1994, and constitutes a technical revision of these documents.* The following Joint Australian/New Zealand Standards will remain available as superseded documents until December 2003:

AS/NZS ISO 9001:1994, *Quality systems—Model for quality assurance in design, development, production, installation and servicing*

AS/NZS ISO 9002:1994, *Quality systems—Model for quality assurance in production, installation and servicing*

AS/NZS ISO 9003:1994, *Quality systems—Model for quality assurance in final inspection and test.*

For the purposes of this Standard, the ISO text should be modified as follows:

- (a) Terminology—The words ‘this Joint Australian/New Zealand Standard’ should replace the words ‘this International Standard’ wherever they appear.
- (b) Certain Standards referenced in the International Standard have been adopted as Joint Australian/New Zealand Standards, as identified by the Joint AS/NZS ISO numbering.

The term ‘informative’, has been used in this Standard to define the application of the Annex to which it applies. An informative Annex is for information and guidance only.

* The Foreword issued by ISO states ‘This third edition of ISO 9001 cancels and replaces the second edition (ISO 9001:1994) together with ISO 9002:1994 and ISO 9003:1994. It constitutes a technical revision of these documents. Those organizations which have used ISO 9002:1994 and ISO 9003:1994 in the past may use this International Standard by excluding certain requirements in accordance with (Clause) 1.2’.

In Australia and New Zealand, AS/NZS ISO 9001:1994, AS/NZS ISO 9002:1994 and AS/NZS ISO 9003:1994 are superseded, but will remain available until December 2003, to assist organizations currently using them to make the transition to AS/NZS ISO 9001:2000. However, this period refers only to the availability of the documents themselves, and organizations are encouraged to review their use of the standards and to discuss the transition with, for example, their certification body, customers and so forth, in order to decide a practicable time scale for the transition.

Contents

	Page
1 Scope	1
1.1 General	1
1.2 Application	1
2 Normative reference	1
3 Terms and definitions	1
4 Quality management system	2
4.1 General requirements	2
4.2 Documentation requirements	2
5 Management responsibility	3
5.1 Management commitment	3
5.2 Customer focus	4
5.3 Quality policy	4
5.4 Planning	4
5.5 Responsibility, authority and communication	4
5.6 Management review	5
6 Resource management	5
6.1 Provision of resources	5
6.2 Human resources	6
6.3 Infrastructure	6
6.4 Work environment	6
7 Product realization	6
7.1 Planning of product realization	6
7.2 Customer-related processes	7
7.3 Design and development	8
7.4 Purchasing	9
7.5 Production and service provision	10
7.6 Control of monitoring and measuring devices	11
8 Measurement, analysis and improvement	11
8.1 General	11
8.2 Monitoring and measurement	11
8.3 Control of nonconforming product	12
8.4 Analysis of data	13
8.5 Improvement	13
 Annexes	
A Correspondence between ISO 9001:2000 and ISO 14001:1996.....	15
B Correspondence between ISO 9001:2000 and ISO 9001:1994	19
Bibliography.....	23
