Reconfirmed 2016

AS/NZS CISPR 16.2.4

Australian/New Zealand Standard™

**Specification for radio disturbance and  
immunity measuring apparatus and  
methods**

**Part 2.4: Methods of measurement of  
disturbances and immunity—Immunity  
measurements**

#### **AS/NZS CISPR 16.2.4:2004**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee TE-003, Electromagnetic Interference. It was approved on behalf of the Council of Standards Australia on 24 March 2004 and on behalf of the Council of Standards New Zealand on 16 April 2004. It was published on 2 June 2004.

---

The following are represented on Committee TE-003:

Australian Broadcasting Authority  
Australian Broadcasting Corporation  
Australian Chamber of Commerce and Industry  
Australian Communications Authority  
Australian Electrical and Electronic Manufacturers Association  
Australian Information Industry Association

Institution of Engineers Australia  
Ministry of Economic Development (New Zealand)  
SingTel Optus  
Society of Automotive Engineers – Australasia  
Telstra Corporation  
University of Western Australia  
Wireless Institute Australia

---

#### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.
