AS 1171—1998

Reconfirmed 2022

# Australian Standard™

Non-destructive testing— Magnetic particle testing of ferromagnetic products, components and structures This Australian Standard was prepared by Committee MT/7, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of Standards Australia on 29 May 1998 and published on 5 September 1998.

The following interests are represented on Committee MT/7:

Australasian Railway Association

Australian Aerospace Non-destructive Testing Committee

Australian Institute for Non-Destructive Testing

Australian Nuclear Science and Technology Organisation

Australian Pipeline Industry Association

Bureau of Steel Manufacturers of Australia

Electricity Supply Association of Australia

Industrial Research Limited New Zealand

Institution of Engineers Australia

Metal Trades Industry Association of Australia

National Association of Testing Authorities, Australia

New Zealand Non-destructive Testing Association

Society of Automotive Engineers, Australasia

Victorian WorkCover Authority

Welding Technology Institute of Australia

WorkCover New South Wales

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition and any amendments thereto

edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

AS 1171-1998 (Reconfirmed) 2022-07-14

### STANDARDS AUSTRALIA

#### RECONFIRMATION

## OF AS 1171—1998

Non-destructive testing — Magnetic particle testing of ferromagnetic products, components and structures

### RECONFIRMATION NOTICE

Technical Committee MT-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 12 July 2022.

The following are represented on Technical Committee MT-007:

Australasian Thermographers Association

Australian Industry Group

Australian Institute for Non-Destructive Testing

Australian Nuclear Science & Technology Organisation

**Austroads Limited** 

Engineers Australia

Institute of Electrical Inspectors

Materials Australia

National Aerospace Non-Destructive Testing Board of Australia

National Association of Testing Authorities Australia

New Zealand Defence Force

New Zealand Non-Destructive Testing Association

Weld Australia
