# Australian/New Zealand Standard™

Information technology— Implementation and operation of customer premises cabling

Part 2: Planning and installation

#### AS/NZS ISO/IEC 14763.2:2014

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CT-001, Communications Cabling. It was approved on behalf of the Council of Standards Australia on 3 June 2014 and on behalf of the Council of Standards New Zealand on 20 April 2014.

This Standard was published on 17 June 2014.

The following are represented on Committee CT-001:

Australian Chamber of Commerce and Industry
Australian Industry Group
Australian Information Industry Association
BICSI South Pacific (Australia)
BICSI South Pacific (New Zealand)
Electrical Trades Union
Energy Networks Association
Engineers Australia
National Electrical and Communications Association
Telecommunications Users Association of New Zealand
Telstra Corporation

### Additional Interests:

Australian Communications and Media Authority Communications Alliance National Broadband Network

### Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR AS/NZS ISO/IEC 14763.2.

### **PREFACE**

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee CT-001, Communications Cabling.

This Standard is identical with, and has been reproduced from ISO/IEC 14763-2:2012, *Information technology—Implementation and operation of customer premises cabling*, Part 2: *Planning and installation*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text 'this part of ISO/IEC 14763' should read 'this Australian/New Zealand Standard'.
- (b) A full point substitutes for a comma when referring to a decimal marker.

References to International Standards should be replaced by references to Australian or Australian/New Zealand Standards, as follows:

Reference to International Standard		Australian/New Zealand Standard		
IEC 61935 61935-1	Specification for the testing of balanced and coaxial information technology cabling Part 1: Installed balanced cabling as specified in ISO/IEC 11801 and related standards	AS/NZS 61935 61935.1	Specification for the testing of balanced and coaxial information technology cabling	
ISO/IEC 11801	Information technology—Generic cabling for customer premises	AS/NZS 3080	Information technology—Generic cabling for customer premises (ISO/IEC 11801:2011, MOD)	
14763 14763-3	Information technology— Implementation and operation of customer premises cabling Part 3: Testing of optical fibre cabling	14763	ISO/IEC Telecommunications installations— Implementation and operation of customer premises cabling Part 3: Testing of optical fibre cabling (ISO/IEC 14763-3:2011, MOD)	
24702	Information technology—Generic cabling—Industrial premises	24702	Telecommunications installations— Generic cabling—Industrial premises	
24764	Information technology—Generic cabling systems for data centres	24764	Generic cabling systems for data centres	

Only normative references that have been adopted as Australian or Australian/New Zealand Standard have been listed.

The term 'normative' has been used in this Standard to define the application of the annex to which it applies. A 'normative' annex is an integral part of a Standard.

### **CONTENTS**

1	Scope				
2	Norm	Normative references			
3	Term	ıs, defin	nitions and abbreviations	15	
	3.1	Terms	s and definitions	15	
	3.2	Abbre	viations	21	
	3.3	Conve	entions	22	
4	Conf	ormanc	e	22	
5	Spec	ification	n of installations	23	
	5.1	Gener	ral	23	
	5.2	Install	ation specification	23	
		5.2.1	Requirements	23	
		5.2.2	Recommendations	25	
	5.3	Techn	ical specification	25	
		5.3.1	General	25	
		5.3.2	Safety requirements	26	
		5.3.3	Security requirements	26	
		5.3.4	Performance and configuration – Requirements	26	
		5.3.5	Environmental conditions	27	
	5.4	Scope	e of work		
		5.4.1	Pre-installation		
		5.4.2	Installation		
		5.4.3	Post-installation		
	5.5		y assurance		
6	Qual	ity plan	ning	30	
	6.1	Quality	y plan	30	
	6.2	Sampl	ling	31	
		6.2.1	Balanced cabling	31	
		6.2.2	Optical fibre cabling	33	
	6.3	Treatn	ment of marginal results	34	
		6.3.1	9		
		6.3.2	Optical fibre cabling	34	
	6.4		ment of non-compliant results		
	6.5 Change control				
7	Installation planning			35	
	7.1	'.1 General			
	7.2	Safety	/	35	
		7.2.1	General	35	
		7.2.2	Mains power cabling	35	
		7.2.3	Optical fibre cabling		
	7.3	Enviro	onment	36	
	7.4				
	7.5		nal service provision		
		7.5.1	Requirements	36
