

AS 2118.6—1995

Australian Standard[®]

Automatic fire sprinkler systems

**Part 6: Combined sprinkler
and hydrant**

This Australian Standard was prepared by Committee FP/4, Automatic Sprinkler Installations. It was approved on behalf of the Council of Standards Australia on 14 March 1995 and published on 5 July 1995.

The following interests are represented on Committee FP/4:

Asset Services, Department of Administrative Services
Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Chamber of Manufactures
Australian Fire Authorities Council
Australian Fire Protection Association
Australian Water and Sewerage Authorities
Commonwealth Fire Board
CSIRO—Division of Building, Construction and Engineering
Department of Defence
Fire Protection Industry Association of Australia
Institution of Engineers, Australia
Insurance Council of Australia
Master Plumbers and Mechanical Services Association of Victoria
Melbourne Water
New Zealand Fire Equipment Association
Telecom Australia
The Association of Consulting Engineers, Australia

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 93292.

PREFACE

This Standard was prepared by the joint Standards Australia/Standards New Zealand Committee on Automatic Sprinkler Installations to be Part 6 of AS 2118. It is the result of a consensus among representatives on the joint committee to produce it as an Australian Standard.

The revision to AS 2118 includes Standards Australia's requirements to keep product and installation Standards separate. When complete the series will comprise:

AS

- 2118 Automatic fire sprinkler systems
 - Part 1: Standard
 - Part 2: Wall wetting sprinklers (Drenchers)
 - Part 3: Deluge
 - Part 4: Residential
 - Part 5: Domestic
 - Part 6: Combined sprinkler and hydrant
 - Part 9: Piping support and installation
 - Part 10: Approval documentation
- 4118 Fire sprinkler systems
 - Part 1.1: Components—Sprinklers and sprayers
 - Part 1.2: Components—Alarm valves (wet)
 - Part 1.3: Components—Water monitors
 - Part 1.4: Components—Valve monitors
 - Part 1.5: Components—Deluge and pre-action valves
 - Part 1.6: Components—Stop valves and non-return valves
 - Part 1.7: Components—Alarm valves (dry)
 - Part 1.8: Components—Pressure reducing valves
 - Part 1.9: Accelerators and exhausters
 - Part 2.1: Piping—General

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

CONTENTS

| | <i>Page</i> |
|---|-------------|
| SECTION 1 SCOPE AND GENERAL | |
| 1.1 SCOPE | 4 |
| 1.2 NEW DESIGNS AND INNOVATIONS | 4 |
| 1.3 REFERENCED DOCUMENTS | 4 |
| 1.4 DEFINITIONS | 4 |
| SECTION 2 SYSTEM REQUIREMENTS | |
| 2.1 GENERAL | 5 |
| 2.2 LOCATION AND ACCESS TO SPRINKLER CONTROL ASSEMBLIES .. | 5 |
| 2.3 LOCATION AND ACCESS TO FIRE MAIN ISOLATION VALVES | 5 |
| 2.4 ACCESS TO FIRE HYDRANTS | 5 |
| 2.5 PROTECTION OF SUPPLY PIPING | 5 |
| 2.6 FIRE MAIN (RING) RETICULATION | 5 |
| 2.7 PRESSURE REDUCING VALVES | 6 |
| 2.8 WATER SUPPLIES | 6 |
| 2.9 FIRE SERVICE BOOSTER | 6 |
| 2.10 FIRE ALARM INITIATION | 6 |
| 2.11 FIRE ALARM CIRCUITS | 6 |
| 2.12 MONITORING OF ISOLATING VALVES | 7 |
| SECTION 3 PIPES, VALVES AND FITTINGS | |
| 3.1 GENERAL | 8 |
| 3.2 VALVES | 8 |
| SECTION 4 TESTING | |
| 4.1 GENERAL | 8 |
| 4.2 PRE-TEST PREPARATION | 8 |
| 4.3 HYDROSTATIC TEST | 8 |
| 4.4 FLOW TESTS | 8 |
| 4.5 RECORDING OF TEST RESULTS | 8 |
| APPENDICES | |
| A REFERENCED DOCUMENTS | 9 |
| B LOCATION OF FIRE HYDRANTS AND SPRINKLER CONTROL VALVES .. | 10 |
| C SYSTEM PHILOSOPHY | 13 |
| D SYSTEM RESISTANCE CURVE FOR COMBINED SPRINKLER AND HYDRANT SYSTEMS | 18 |
| E WIRING SYSTEMS RATING | 20 |
| F TYPICAL SPRINKLER CONTROL ASSEMBLIES AND PRESSURE CONTROL STATIONS | 22 |
