

AS 1530.3—1989

Australian Standard[®]

Methods for fire tests on building materials, components and structures

Part 3: Simultaneous determination of ignitability, flame propagation, heat release and smoke release

This Australian Standard was prepared by Committee BD/18, Fire Tests—Building Materials, Components and Structures. It was approved on behalf of the Council of Standards Australia on 7 July 1989 and published on 13 November 1989.

The following interests are represented on Committee BD/18:

Australian British Chamber of Commerce
Australian Fire Protection Association
Australian Institute of Building
Australian Uniform Building Regulations Coordinating Council
Board of Fire Commissioner, New South Wales
Bureau of Steel Manufacturers of Australia
Cement and Concrete Association of Australia
Commonwealth Fir Board
Confederation of Australian Industry
CSIRO Division of Building, Construction and Engineering
Fire Protection Industry Association of Australia
Forestry Commission of N.S.W.
Metropolitan Fire Brigades Board, Melbourne
Plastics Institute of Australia
Royal Australian Institute of Architects

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This is a free preview. Purchase the entire publication at the link below:
