

AS 1530.3—1989

Australian Standard<sup>®</sup>

---

**Methods for fire tests on building materials, components and structures**

**Part 3: Simultaneous determination of ignitability, flame propagation, heat release and smoke release**

---

This Australian Standard was prepared by Committee BD/18, Fire Tests—Building Materials, Components and Structures. It was approved on behalf of the Council of Standards Australia on 7 July 1989 and published on 13 November 1989.

---

The following interests are represented on Committee BD/18:

Australian British Chamber of Commerce  
Australian Fire Protection Association  
Australian Institute of Building  
Australian Uniform Building Regulations Coordinating Council  
Board of Fire Commissioner, New South Wales  
Bureau of Steel Manufacturers of Australia  
Cement and Concrete Association of Australia  
Commonwealth Fir Board  
Confederation of Australian Industry  
CSIRO Division of Building, Construction and Engineering  
Fire Protection Industry Association of Australia  
Forestry Commission of N.S.W.  
Metropolitan Fire Brigades Board, Melbourne  
Plastics Institute of Australia  
Royal Australian Institute of Architects

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
